City of Pittsburgh.  
Office of the Mayor,

To the President and  
Members of City Council.

Gentlemen:

I am sending herewith the estimates for the Budget for 1937, together with the last Controller's Report, showing the expenditures for the first six months of this year.

As there will be little change from the Estimates for 1935, I have not prepared a new set of figures, but am using the printed volume which was gotten up by my accountant for 1935. As I do not have an accountant this year and as there will be very little change, this can be used as a basis and, where the departments have changes, I will forward them to you from time to time.

I am also attaching the Estimates for my office, which you can take for your consideration.

It is my hope that in fixing the tax levy your Honorable Body will fix a rate upon land and buildings sufficient to balance the Budget, instead of making it a figure so small that we have a deficit before we start.

Yours sincerely,

WM. N. McNAIR,  
Mayor.

No. 1547.

September 14, 1936.

President and Members of Council,  
City of Pittsburgh.

Gentlemen:

It seems to me that as the time has arrived for the consideration of the Budget for next year, that the 16% cut in Salaries and Wages which went into effect some time ago might be restored, and I am presenting this matter for your consideration.

Pittsburgh, unlike other cities, has not increased its revenue receipts in the last few years. According to the financial statistics of the federal government recently put out, the total revenue of the Pittsburgh city limits, in which is included the schools and the cost of bearing the extravagant county government, which we are now having to meet as taxpayers of the city, amounts to \$46,875,000.00. Boston, being next above us in population, and San Francisco, being next below us in population, both are in excess of that—Boston being \$77,000,000.00 and San Francisco being \$51,000,000.00. This would show that the revenues collected by Pittsburgh are not excessive. Also when we consider that City of New York collecting \$800,000,000.00 in 1934 and Chicago \$200,000,000.00 and Philadelphia \$120,000,000.00, Pittsburgh does not burden its people with high collection of taxes.

When we consider the total tax bills—school, city and county, and also when we consider that Pittsburgh is the only city that gives the home owner the one-half rate on the building, also when we consider the per capita revenues of the various cities, again Pittsburgh is low. In 1926 the per capita revenue stood at \$74.00, in 1934 it was \$69.00. Now Baltimore on the other hand raised its per capita revenue from \$51.00 in 1926 to \$65.00 in 1934. San Francisco's stands now at \$78.00; Boston's at \$97.00, while Pittsburgh is only \$69.00. New York's

is \$112.00; Newark, N. J.'s is \$107.00; Seattle's \$101.00; Rochester's \$94.00, so you see Pittsburgh's per capita revenue is not excessive and the increased revenue which would be required by the extra compensation given with the return to the old rate of pay, as compared with the other cities, would not be an undue burden upon the taxpayers.

Furthermore the main part of the City's expenditures come from protection to persons and property. In this respect we do not find Pittsburgh to be excessive in its charges for these services. For the Police Department in 1934, the figures show \$2,500,000.00, and for the Fire Department about \$2,000,000.00. Boston, Massachusetts' police department costs \$4,800,000.00 and fire department \$3,200,000.00. San Francisco's police department costs \$3,300,000.00, and its fire department \$3,000,000.00. Baltimore's police department costs \$4,100,000.00 and its fire department \$2,800,000.00. St. Louis' police department costs \$4,900,000.00 and Washington, D. C., with a much smaller population than Pittsburgh, costs over \$3,000,000.00.

While the county taxes have gone up tremendously and the schools, compared with other locations, yet our city expenses have been decreasing. For instance, our school budget in 1934 was \$10,800,000.00 and Boston's a little over \$8,000,000.00; St. Louis' over \$9,000,000.00; San Francisco's \$7,700,000.00; Milwaukee \$8,400,000.00; Washington's \$8,200,000.00, so you see the tax burden of the school board is much heavier in Pittsburgh than other cities of the same size. In Philadelphia the county taxes are nominal and in Lancaster and similar cities of that size, the county tax is very low, but in recent years by tremendous increase in payroll and recently by the element of politics, giving poor service, like at the county airport, we find the County of Allegheny has greatly increased tax burdens. As far as the county services are concerned, those services are very minor compared to what the City does.

The City furnishes police and fire protection, healthy water, sanitation, parks, streets and many other services, and yet the small home is charged very little more for all these services than the rate put upon our citizens by the

County, whose functions I have never been able to ascertain. In view of this it seems to me we could either ask the school board to try to curb their extravagance, or as a City request the county to reduce their burden, or else we could very well do justice to those of the city employ who are furnishing such necessary services.

Another consideration, Pittsburgh has been fortunate enough to assess its community value at a fair figure, so that any increased tax burden will fall little upon the mass of people. The seven cities, starting with Los Angeles that have a comparative land and building assessment to Pittsburgh, that is about \$1,000,000,000.00, vary a great deal in population for 1934. Los Angeles, being practically double Pittsburgh, and Cleveland being much larger population than Pittsburgh, by their basis of assessment from which they secure their revenues are not as adequate as Pittsburgh, and so our City can well afford an increase in taxes since we put it on a more fair basis than the other cities in the same class as ourselves.

Furthermore many cities have increased their bonded indebtedness during recent years, while Pittsburgh, of course including the county and schools, has been more or less on a pay as you go basis, so that is a factor which you can take into consideration.

It should be remembered that the increase in taxes necessary to restore these men their pay would be a trifling increased burden on the home owner, due to the fact that the average owner's building is from three to five times as much as his lot, and of course as you gentlemen know, in our graded tax plan only about 25% of the City Budget comes from building values, and I am informed by the Board of Assessors that in all probability it will be necessary for them to further reduce the assessed valuation of homes.

The limit of the millage that can be set by the School Board on the assessed valuation of the City is 12 mills. The chances are that the total assessed valuation of the City will be reduced somewhere between twenty and forty percent. Practically all of this reduction applies to the value of properties used for dwelling purposes. Therefore,

the School Board, being unable to raise their tax levy above twelve mills, will be absolutely compelled by the law to reduce their expenses and the home owner will be relieved of considerable of the school tax burden. Inasmuch as the City gets only about twenty-five percent of its revenue from building values, the increase in millage for the purpose of restoring the 16% percent salary cut will not be an additional burden upon the home owner because he will be saved the amount of the increase on his school tax burden and I do not know of any home owner that does not wish a well-paid, satisfied police department and a well-paid, satisfied fire department to look after his interests in time of trouble, and he is also willing to pay for it.

This change in assessment of houses is inevitable. Seventy-five percent of the houses in Pittsburgh are assessed for more than they could be sold for and, whether the Board of Assessment does it voluntarily or whether it is brought about by appeals, the reduction in the assessed value of the average house in Pittsburgh is bound to come and when this is done, even though the tax rate on buildings would be raised from ten to eleven, the total tax bill of the small home owner would not be increased because he would save it in his school tax and when you increase the tax rate on houses one mill you must remember that you have to increase the tax rate on ground values two mills. So that the person who will foot this increase, resulting from the return to the old salary basis, will be the very person whose values are increased by the efficient police protection and fire protection furnished by the City. Some of our downtown corners pay over and above their taxes hundreds to thousands of dollars per day for the privilege of taking advantage of these City services and this money is generally paid to absentee land holders, so that it is only fair that the people working for the City, who create this ground rent, should receive from these beneficiaries an adequate return for their services.

Very truly yours,  
WM. N. McNAIR,  
Mayor.

City of Pittsburgh,  
Office of the Mayor.

October 10, 1936.

Chairman and Members,  
Committee on Finance.

Gentlemen:

I understand the action of your committee in connection with the estimates furnished by the various departments covering their requirements for 1937—insofar as there seems to be confusion

and a general misunderstanding—the writer would suggest that all estimates and correspondence pertaining to same be returned or sent to the Mayor's office.

As quickly as possible we will obtain the necessary information from the City Assessors' office and make an effort to get enough temporary employes from the several departments so that we can present to your committee the estimates in proper form and in an orderly manner.

Yours very truly,

CORNELIUS D. SCULLY,  
Acting Mayor.

Mr. McArdle moved

That Mr. Demmler be elected Chairman of the Convention.

Which motion prevailed.

And Mr. Demmler took the chair.

Mr. McArdle moved

That Edward A. Schofield be elected Secretary of the Convention.

Which motion prevailed.

The Chair stated

That nominations for the office of Mayor would be in order.

Mr. Anderson arose and said:

Mr. Chairman:—I arise at this time to place in nomination the name of the man who will become the next Mayor of the City of Pittsburgh.

I think that I know the kind of a man the people of our city desire as Mayor. The man who I will nominate

is an educated man, a serious man, a proud man, who takes a great pride in accomplishing the things he starts to do. He is also an experienced man, and has the respect of every man and woman in his profession.

He is a home-loving man, and there is nothing nearer or dearer to him than his home and his family. I feel that a man of this character and experience will fill the wishes of the people.

Surely this is a guarantee that this man will conduct the affairs of our city in a businesslike and economic manner.

I had the honor to nominate him for the Presidency of City Council. At that time I spoke of his qualifications and his many virtues. Let me assure you that I have not been disappointed in him. Every question that came before this body was handled in an able manner. His rulings have been fair; his treatment and consideration of the members of this Council have always been kind and gentlemanly.

I fully realize the responsibility, the requests and the demands that will be made upon the man who is to become Mayor of a city of this size. I know that he will not please every one at all times. I know that he will be criticized.

We all know that he is part of a political organization. We know that we cannot divorce government and politics; therefore, we cannot divorce politics from government. We fully realize the necessity of leaders in industry; therefore, we must have leaders in politics. The first time I was elected a member of this Council, I was elected on a Non-Partisan ticket. We had a political organization and political leaders then. I was elected on the Republican ticket. We had political organizations and political leaders then. I was elected on the independent ticket. We had a political organization and political leaders then. The last time I was elected on the Democratic ticket. We had a political organization and political leaders then. Therefore, the man that I am to nominate has a perfect right to be a part of a political organization.

Therefore, a man who has the education, knowledge, experience and abil-

ity that this man possesses, knows that the responsibilities of the Mayor's office are entirely upon him.

There are two branches of government in this city, namely, the executive branch and the legislative branch.

The man that I am to nominate at one time occupied the position of City Solicitor. It was his duty to advise both branches of government. He has been a member of this Council and he understands the many problems that confront it. He understands that these questions must be approached in a sane, legal, serious and orderly manner if they are to be solved. He has also had experience as the Executive of this great city, having served for the past two weeks as the Acting Mayor.

We regret the passing of the gentleman from this Council, but I know that we will have a man in the Chief Executive's office that will work with the Council at all times to the best interests of the people of the City of Pittsburgh.

Therefore, Mr. Chairman, I now nominate for the unexpired term as Mayor of the City of Pittsburgh, Mr. Cornelius D. Scully.

Mr. Evans arose and said:

Mr. Chairman:—I had the honor and pleasure to second the nomination of Mr. Scully for the Presidency of this Council, and I wish to say that I consider it one of the greatest pleasures of my life to second his nomination for Mayor of this great city. I feel no greater tribute can be paid a man than to say, after living his entire life in a community, that he holds the respect and confidence of his fellow-citizens.

Mr. Scully has lived his entire life in Pittsburgh. During that time he has been active in many of the civic and public affairs of this city. He has proved himself a citizen worthy of the respect of all men. I feel that his election as Mayor of the City of Pittsburgh will meet the approval of all classes of people, regardless of politics, religion or race.

It is a great pleasure for me to arise at this time, in this Council, to second the nomination of Mr. Scully.

Mr. Magee arose and said:

Mr. Chairman:—I also wish to second the nomination of Mr. Scully.

not on any political grounds, however, but on the contrary on personal grounds and because of his proved efficiency, knowledge of city affairs and a considerable amount of experience in public matters.

I, of course, will differ with Mr. Scully after he goes into the Mayor's office. I make the reservation that I will differ with him on some very important public policies; but, on the other hand, I know a number of issues that I will see with him eye to eye.

Therefore, I consider it a pleasure to also second his nomination.

Mr. McArdle moved

That the nominations close on the name of Mr. Scully.

Which motion prevailed.

And the Chair directed the Clerk to call the roll on the name of Mr. Scully.

And the Clerk called the roll, and the result of the voting was as follows:

For Cornelius D. Scully:

Messrs.

Anderson

Evans

Gallagher

Garland

Magee

McArdle

Weir

Demmler

Chairman

(Mr. Scully not voting).

And Cornelius D. Scully having received 8 votes, being a majority of the votes of Council, was duly elected Mayor of the City of Pittsburgh, to serve the unexpired term of Wm. N. McNair, resigned.

Mr. McArdle moved

That the Secretary of the Convention notify Mr. Cornelius D. Scully and the members of Council, in writing, of the election of Mr. Scully as Mayor of the City of Pittsburgh by this Convention.

Which motion prevailed.

And on motion of Mr. McArdle.

The Convention adjourned.

#### REPORTS OF COMMITTEES.

Mr. Anderson (for Mr. Demmler) presented

No. 1778. Report of the Committee on Finance for October 14, 1936, transmitting sundry ordinances and resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1651. An Ordinance entitled, "An Ordinance authorizing the Mayor and the Director of the Department of Public Works to file applications to the United States of America through the Federal Emergency Administration of Public Works for grants to aid in financing the

In Finance Committee October 14, 1936, bill read and amended by inserting at the end of Section 1, as shown in red, and in the title by adding the words, "replacement of 42" Smallman street Pipe Line; constructing 20" Reinforcement Main to Oakland Heights; Encasing 60" Rising Main to Lanpher Reservoir, Extensions and improvements of the water pipe systems; construction of a new storage tank at Allentown site; construction of Squirrel Hill Tank; construction of Lincoln Tank; replacement of Filtration Plant heating and ventilating equipment and rate controllers; Flood Protection at Pumping Stations, and designating the Director of the Department of Public Works to furnish such information as the Government may request," and as amended, ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Anderson moved

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in Committee, and agreed to by Council, was read.

Mr. Anderson moved

A suspension of the rule to allow second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Magee arose and said:

Mr. President: In view of the notice that Council has received from the Department of Assessors about the probable reductions in property assessments, and therefore a consequent reduction in the revenues of the City from the tax levy, it seems to me that we ought to withhold action on Bill

Nos. 1651, 1652 and 1701. I think these bills ought to go back to committee for further consideration unless there is some compelling reason that the applications for grants in aiding the City to finance public improvements should be filed immediately. I was wondering if there is any urgency in passing these ordinances today.

Mr. McArdle arose and said:

Mr. President: The urgency is due to the fact that the funds now in the possession of the PWA agencies at Harrisburg are limited, and they have been receiving applications of a similar nature from other parts of the State, and in correspondence and conference with them we have been emphatically urged to file any applications we care to make with them as promptly as possible. We have delayed in making these applications longer than they expected. It seems to me, therefore, if the City is to give consideration to making these improvements with the use of Federal funds through PWA, it is highly important that all applications be placed on file at the earliest possible date, unless we want to face the possibility, if not the probability, that we will be told that there are no funds allocated for these purposes.

Mr. Magee said:

Mr. President: There are a number of these items, such as the replacement of inadequate water lines, which are not urgent. However, the question of their inadequacy is something that there might be some difference of opinion about. Then there is the replacement of heating and ventilating equipment at the Filtration Plant. Possibly there is some urgency in making these replacements.

I am not going to oppose the passage of these ordinances today, but I do think that we ought to reconsider the whole proposed bond program in view of the changed character of the city's taxing power. The reduction in assessments will probably mean an increase of a mill or more in our tax rate.

Mr. Evans arose and said:

Mr. President: Supplementing Mr. McArdle's remarks, I wish to state that these are authorizing ordinances and are subject to change by Council at any time if we discover later that

all the funds for which applications are made are not required. As Mr. McArdle has said, it is intended to secure the approval of these applications at Harrisburg so as to be in position to secure these funds. It is not our intention to spend all the money for the purposes outlined in the ordinances. Your committee is making up a list of items for the bond issue, and some of the items listed in these ordinances are contingent upon the people's bond issue being approved. Our action today is merely to file legal and proper applications with the PWA for Federal aid in financing these funds if and when City funds are available.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question. "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law and were:

#### MOTIONS AND RESOLUTIONS

The Chair presented

No. 1783.

CITY OF PITTSBURGH

Office of the City Clerk

October 19, 1936.

To the Council of the  
City of Pittsburgh.

Gentlemen:—

This is to officially notify the Council of the City of Pittsburgh that, at a convention held in the Council Chamber of the City of Pittsburgh, City-County Building, Pittsburgh, at 12:00 o'clock Noon, on October 19, 1936, which convention was held pursuant to a proclamation issued by Cornelius D. Scully, Acting Mayor, under date of October 13, 1936, Cornelius D. Scully was elected by said convention as Mayor of the City of Pittsburgh to fill the vacancy created by the resignation of William N. McNair and to fill the unexpired term of said William N. McNair and until his successor is duly elected and qualified, all in compliance with the Acts of the General Assembly of the Commonwealth of Pennsylvania pertaining thereto.

Respectfully yours,

Edw. A. Schofield,

Secretary of Convention.

Which was read, received and filed.

Also

No. 1784.

**CITY OF PITTSBURGH**

Office of the Mayor

October 19, 1936.

To the Council of the  
City of Pittsburgh.

Gentlemen:—

I hereby tender my resignation as President and Member of City Council of the City of Pittsburgh, to take effect immediately.

Respectfully yours,

Cornelius D. Scully.

Which was read, received and filed.

Mr. Anderson moved

That the resignation of Cornelius D. Scully as President and Member of City Council of the City of Pittsburgh, be accepted.

Which motion prevailed.

Mr. Anderson moved

That Council proceed to the election for a President of Council.

Which motion prevailed.

Mr. Anderson arose and said:

Mr. Chairman: I have a member of this Council in mind who I feel is the logical man to fill the office of President of this Council. He has been a member of this Council for a number of years, and there is no man I know of who has the knowledge and experience that he has and possesses. I feel that this Council will go farther by his election than anything that we have done in a long time. The gentleman understands the workings of this Council, he understands the treatment that the members of this Council are entitled to; his rulings will be fair; and every man and woman who appears before this body, let me assure you, will receive courteous treatment. I think we are fortunate in having a man of his ability and experience to take the place of Mr. Scully, who I had the honor this morning of nominating for the office of Mayor.

Therefore, Mr. Chairman, I nominate Councilman P. J. McArdle for President of Council.

Mr. Gallagher arose and said:

Mr. Chairman: I arise to second the nomination of Mr. McArdle for President of Council. It is needless for me to say that he has the ability and knowledge to preside over the deliberations of this body. Mr. McArdle has served the City of Pittsburgh for many years and he is one man that has kept the promise "that a public office is a public trust." Mr. McArdle has aided me in many ways, and I think his keen judgment has solved many difficult and perplexing problems in the City of Pittsburgh.

Mr. Weir arose and said:

Mr. Chairman: I also want to say a word in seconding the nomination of Mr. McArdle. I second it because I admire him as a fine citizen and because of his ability to preside over this body.

The Chair said:

Are there any other nominations?

Mr. Anderson moved

The nominations close on the name of Mr. McArdle.

Which motion prevailed.

And the result of the voting was as follows:

For P. J. McArdle:

Messrs.

Anderson  
Evans  
Gallagher

Garland  
Magee  
Weir

Demmler

(Pres't Pro tem)

(Mr. McArdle not voting).

And P. J. McArdle having received seven votes, being a majority of the votes of Council, was duly elected President of Council to fill the unexpired term.

And the Clerk administered the oath of office to the President of Council, P. J. McArdle, and Mr. McArdle said:

Gentlemen of Council: I want to express my very deep appreciation of your expression of confidence in my ability to perform the duties of this office, and in presenting my name, Mr. Anderson has set a high standard for me to attempt to achieve. I shall at-

tempt to achieve it; and I trust by such attempts as I make, I will merit your expression of confidence and prove myself a worthy successor to the distinguished gentleman who has so splendidly served in this office before me. I thank you again for your expression.

I think at this time it would be proper if Council were to provide for a committee to escort Mayor-elect Scully to this rostrum to receive the oath of office of Mayor of this city, and that during that procedure this Council recess for a period of say, 10 minutes. I shall be glad to receive such a motion.

Mr. Anderson moved

That a committee be appointed to escort Cornelius D. Scully to the Council Chamber to receive the oath of office, and Council to take a recess for a period of ten minutes (until 2.50 P. M.)

Which motion prevailed.

And the Chair appointed Messrs. Anderson, Garland and Weir as members of the Committee.

And Council recessed.

(During the recess, the Committee returned to the Council Chamber with Cornelius D. Scully, where the oath of office as Mayor was administered to him by the President of Council).

The hour of 2:50 P. M. having arrived, and the time of the recess having expired, Council re-convened, and there were present:

Messrs:

|          |                   |
|----------|-------------------|
| Anderson | Gallagher         |
| Demmler  | Garland           |
| Evans    | Weir              |
|          | McArdle, (Pres't) |

Absent: Mr. Magee.

The Chair presented  
No. 1785.

Cornelius D. Scully,

Which was read, received and filed.

Also

No. 1786. Bond in the sum of \$25,000.00 on the Continental Casualty Company on behalf of Cornelius D. Scully, Mayor, in favor of the City of Pittsburgh.

Which was read, and having been approved by the City Solicitor, on motion of Mr. Anderson, was accepted and approved.

#### COUNCIL OF THE CITY OF PITTSBURGH

Pittsburgh, Pa.,  
October 21, 1936.

Mr. Edward A. Schofield,  
Clerk of Council.

Dear Sir:

You are hereby notified that the members of Council and the Mayor will meet in the Council Chamber on Friday, October 23, 1936, at 11:30 A. M., for the purpose of holding an election to fill the vacancy in Council, created by the resignation of Cornelius D. | Gallagher                            | McArdle, (Pres't) |
| and Hon. Cornelius D. Scully, Mayor. |                   |

The Chair stated:

That Council was ready to receive nominations to fill the vacancy caused by the resignation of Cornelius D. Scully.

Mr. Gallagher arose and said:

Mr. President:—I arise to place in nomination the name of a man who is a prominent attorney in the City of Pittsburgh, who has served in various capacities in public affairs, was the Internal Revenue Collector in the City of Pittsburgh. He was an assistant city solicitor. He is a man held in high esteem by his fellow-citizens. He is a married man with a family, and a man whom I think will fill the vacancy in Council to the satisfaction of not only the members of Council but the citizens of Pittsburgh.

I take great pleasure in presenting the name of James L. O'Toole.

The Chair said:

Are there any further nominations?

Mr. Magee arose and said:

Mr. President:—I was elected a member of this body as a non-partisan, and I must vote for a candidate for this vacancy who bears that character. I have no authority to use the name of Prof. Marlon K. McKay. I tried to get him on the telephone last night, but he is out of the city. Not having his authority I cannot formally place him in nomination, but I intend to give him my vote.

Mr. Evans arose and said:

Mr. President:—In behalf of Marion K. McKay, I wish to say that a short time ago he consented to have his name placed in nomination, and if Mr. Magee intends to place Mr. McKay's name in nomination, I will second it.

I wish to say, in seconding the nomination of Marion K. McKay, that he is a foremost educator, an outstanding expert in public finance, a student of municipal government, an active leader in civic affairs, a past president of the Civic Club, a proponent of City manager and proportional representation system of city government; at present financial advisor to the Department of Public Instruction, and a member of the State Water Board; although a life-long Democrat, he was honored by appointment by a Republican Governor of Pennsylvania for membership on the Tax Committee, whose duty it was to recommend changes in the tax system of the State of Pennsylvania. He was also appointed by a Republican President as one of the financial advisors to the Re-finance Corporation. His election to membership in this Council would receive the approval of citizens of every political complexion.

The Chair said:

In order that the record might be right, I want to ask Mr. Magee if he placed Mr. McKay's name in nomination?

Mr. Magee said:

Mr. President:—Strangely I arrived at the same conclusion about this matter as Mr. Evans, without consulting him. I did not know that he had Mr. McKay's authority to use his name in this behalf. Therefore, I formally place in nomination the name of Marion K. McKay.

Mr. Evans said:

Mr. President:—I merely wish to say again that I second the nomination of Mr. McKay.

Mr. Anderson arose and said:

Mr. President:—If I am in order, I arise to second the nomination of Mr. O'Toole.

The Chair said:

You are in order, Mr. Anderson.

Mr. Anderson said:

Mr. O'Toole is no stranger to the members of Council. He is a lawyer and has full knowledge of the duties and the problems that face the Council. His experience in government affairs was gained through employment as a government employee. He was also one of our Assistant City Solicitors, and acting in that capacity, he was assigned to the Civil Service Commission. We are all acquainted with what has happened since Mr. O'Toole has left the City Solicitor's office. There have been a number of decisions by the court against the City of Pittsburgh, and it has cost the City of Pittsburgh thousands of dollars to pay city employees who were dismissed illegally and out of the service through actions of the heads of the executive departments and bureaus. Surely the study Mr. O'Toole has made, as one of our City Solicitors, will be a great help not only to the City Council, but to the Executive Branch of our government, and will also result in a great saving to the people of Pittsburgh. Surely, when this Council appropriates money for employees who are employed by the City of Pittsburgh, the citizens expect some service from them. In most of the decisions that were rendered against the City on appeals by city employees, it cost the city many thousands of dollars and the City received nothing in return as services.

Therefore, a man of his knowledge and experience would be a big help, not only to the Council, but the entire city. Surely we need a man with his knowledge and experience in Council, and I feel that the City and the people of our City should be congratulated in having such a man to fill this position. The man whose nomination I am seconding has all these qualifications. He is a learned man; he is respected in his profession. There is nothing more we can ask for. Surely we need a man of his experience in Council.

We regret the passing of Mr. Scully from Council, but we are fortunate in being able to select another attorney to fill his position. Therefore, I think Mr. O'Toole is the proper man to fill this position.

Mr. Weil arose and said:

Mr. President:—I too second

the nomination of Mr. O'Toole. I have known Mr. O'Toole for a good many years and know his family well, his mother and father, and know them to be of the highest character, and know that he is one of the squarest men I have met in my life. His standing at the Allegheny County Bar is above reproach.

Mr. Garland arose and said:

Mr. President:—May I say a word, not in regard to seconding or thirding, but I want to go on record that I came into office as an Independent Republican. I have always been a Republican and will remain a Republican, and when my friend on the left, who a Republican, puts up a Democrat for office, knowing that I cannot put up a Republican, as he probably would get only one vote, I am going to vote for the better man of the two nominated. I must choose between two Democrats, and when I vote, I will choose the better man.

The Chair said:

Is it possible that you mean the least objectionable?

Mr. Garland said:

I said the better man.

Mr. Weir moved

That the nominations close on the names of James L. O'Toole, Jr., and Marion K. McKay.

Which motion prevailed.

The Chair instructed the Clerk to call the roll.

And the roll being called, the result of the voting was as follows:

For Mr. James L. O'Toole, Jr.:

Messrs.

Anderson  
Gallagher

Garland

Weir

McArdle, (Pres't)

and Hon. Cornelius D. Scully, Mayor.

For Marion K. McKay:

Magee

And Mr. O'Toole having received six votes, being a majority of the entire membership of Council, including the Mayor, was declared duly elected a member of Council in accordance with the provisions of the Act of Assembly of May 31, 1911.

At this time Mr. O'Toole appeared and took and subscribed to the oath of office, which was administered by the City Clerk.

The Chair said:

Gentlemen, I present Mr. James L. O'Toole, Jr., newly elected member of Council.

Mr. O'Toole arose and said:

Mr. President and Gentlemen: I need not tell you that I appreciate this expression of confidence, nor need I tell you that I consider it my obligation as a councilman to execute the very definite promises made by my party to the people in 1933.

And on motion of Mr. Gallagher.

Council adjourned.

Mr. Garland moved

That the Minutes of Council of Monday, October 19, and Friday, October 23, 1936, be approved.

Which motion prevailed.

The Chair announced the appointment of Mr. O'Toole as Chairman of the Committee on Health and Sanitation.

Mr. Demmler, at this time, asked the privilege of placing the following remarks in the record:

Mr. Demmler said:

Mr. President: I arise to a question of personal privilege. Everyone knows that last Saturday there was an immense amount of traffic on our streets, and it is interesting to note the various reports regarding traffic conditions. One report says,

"But traffic! It was snarled before the game, although police were able to clear it enough to get the record-breaking throng inside the stadium. After the game, from Oakland to downtown, hours passed before the jam was broken."

Another report said,

"With one of the biggest crowds in Pittsburgh history converging on Pitt Stadium yesterday afternoon, traffic jams were held at a minimum by the police."

"The long lines of incoming cars moved slowly toward the Stadium, of course, but they continued to move. Parking was forbidden on the main traffic arteries in the Oakland district, thus providing space for more lanes of cars."

"After the game was over the crowd dispersed even more rapidly than it had gathered. In half an hour traffic was moving normally again on most of the streets and boulevards."

From my own observation, this second report is correct, and the Department of Public Safety is to be complimented on the way in which it handled the traffic.

The congestion or snarls, which did exist, were due to a few individuals who ignored the signs of "no parking" on our boulevards, on Forbes street and on Fifth avenue. Were it not for a very few cars, those delays or traffic jams which did exist would have been prevented by these few individuals obey-

ing the request of "no parking".

This brings to our attention again the question of the whole parking situation in Pittsburgh. As long as the official cars of the City, County and State will continue to ignore our traffic signs, we cannot hope for the general public to obey these signs.

Yesterday afternoon Sixth street, a no-parking street, from Penn avenue to Duquesne way, was parked solid on both sides of the street. We must see to it that steps will be taken to have automobile owners and drivers respect our traffic signs, and our Traffic Court must be made a court in which, if not 100 per cent., then at least 99 per cent. of violations will receive a hearing and have fines imposed.

Not only our streets need to be open to traffic, but our sidewalks. It is getting so that our sidewalks are infringed upon by our merchants to a width of at least four feet in some places. News stands are being placed in such a way that they are blocking the cross-walks for pedestrians. The sandwich boards are also creating a hazard to the pedestrian.

I feel the department and the administration should adopt and place in force a no-privilege policy and see that everyone respects our laws. In that manner we will be able to remedy these traffic conditions and avoid congestion on our sidewalks.

Mr. Magee moved

That Council invite the Mayor to confer with Council relative to a legislative program, and ask him to come for the first conference tomorrow, at the Committee meeting.

Which motion prevailed.

And on motion of Mr. Weir

Council adjourned.

A majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. Weir moved

That the Minutes of Council of Monday, October 26, 1936, be approved.

Which motion prevailed.

Mr. Demmler, at this time, arose and said:

Mr. President, I arise to a question of personal privilege. Last Monday I made a few remarks regarding traffic and traffic conditions in the City, and from the reports made, a person would be led to believe that the condition is caused by the parking of official cars. That is not the condition, as one will readily observe by looking around our city today.

This morning during the rush hour, from 8:30 until 9:30, it required fifty-five minutes for a street car to go from Sixteenth street and Penn avenue back to Sixteenth street and Liberty avenue, a distance of less than two miles.

This delay was caused by the parking of a number of automobiles on Penn avenue between Sixteenth street and Eleventh street, compelling traffic to go in two lanes instead of three lanes.

Yesterday evening at eight o'clock, Sixth street, a no-parking street, was parked on both sides from Duquesne way to Liberty avenue, blocking traffic half way across the Sixth Street Bridge.

You will note that on some of our no-parking locations there are taxicab stands; and if we permit the establishment of taxicab stands on these streets we may as well allow other vehicles to park there also, as these parked taxicabs congest or delay traffic as if the entire section of the street were lined with automobiles.

Fourth avenue, today at noon, was congested from Ferry street to Ross street.

I wish to state that until the Mayor instructs the Department of Public Safety of an exact outline of procedure as to the enforcement of our traffic rules, we cannot expect to find much relief, much less a remedy to the congestion of traffic.

If it continues raining until this evening, the conditions in downtown Pittsburgh will be what they were a little more than two weeks ago. I am sure that it is the purpose of Council to remedy traffic conditions.

Mr. Anderson arose and said:

Mr. President, I had the same experience coming up Fourth avenue

today, it requiring a half hour to come from Ferry street to Grant street.

Let me assure the gentleman that I have been in touch with the Director of the Department of Public Safety. I don't know anyone who is working harder to solve this question than the Director of Public Safety. I hope the Mayor will adopt his recommendations.

The Director of Public Safety has notified the public through the press that the police officers propose to enforce the traffic regulations.

I concur in what Mr. Demmler says about our present enforcement of the traffic rules. You can ride along these streets, where there are traffic signs 20 or 50 feet apart, and see cars parked on both sides of the street. I don't know of any other city in the country where there is a condition similar to that on Fourth avenue. Should a fire occur on this street, it would be impossible for the fire apparatus to get through.

The Mayor is acquainted with this condition; and if he is not, at least the Director of Public Safety is, and he is sincere in telling the public that he is going to enforce the ordinance.

Unfortunately we have not up to the present time a towing ordinance in force to remove automobiles illegally parked in these districts. That problem, we hope to work out in a few days.

I was in conference with the Director of the Department of Public Safety and the Superintendent of Police this morning and they are very much concerned and, in fact, worried about this condition.

It is my purpose to confer with the Mayor on this subject.

I agree with the previous speaker that the administration should work out a policy, adopt it and see that it is enforced. I am a hundred per cent. for that, and that is the thing we are striving to work out. I think we are getting somewhere. These men are new in office, and like the Mayor, it takes time to do these things, and when it starts, it is hoped everybody will obey the rules.

It is necessary to have ordinances, and we must be sure that they will be

entirely enforced by the department. Some of the complaints can be put on Council because the penalties fixed for violation of the ordinances are not large enough. Surely we must take care of the cars if we are going to haul them away and provide garages to take care of them. However, there is a question whether we have a right to tow cars from our streets.

I want to assure the members of Council this parking question is uppermost in the minds of the Director and the speaker. Just a few moments ago I discussed this matter with the Traffic Engineer and he has an ordinance about ready to present to Council. When it is presented, it will require some study by the members of Council before adoption. I hope this partially answers Mr. Demmler's question.

The Chair said:

I express the hope that the Chairman of the Public Safety Committee will not attempt to enforce this or any other ordinances that we pass. It is not his responsibility.

Mr. Evans arose and said:

Mr. President. I also arise to make a few remarks in regard to the traffic situation in Pittsburgh.

I had understood a year or two ago somebody had invented a "fixless" tag, and I know that only a few months ago, tag-fixing was going on wholesale in traffic court.

As one member of Council, I am in favor of the strict enforcement of the traffic ordinances; but I cannot see any use of having parking rules in the downtown streets, if it is impossible to enforce them in traffic court.

In other words, if the tag-fixing continues and police officers are instructed to give out tags, to be later fixed, their time is merely wasted.

The Chair said:

I will instruct the Clerk, when he transcribes his notes, to transmit a copy to the Mayor.

And on motion of Mr. Weir

Council adjourned.

No. 1933.

City of Pittsburgh,  
Department of Law,

November 7, 1936.

Finance Committee of Council.

Gentlemen:

On Bill No. 1843, being a Bill for

An Ordinance appropriating the sum of One Thousand Five Hundred (\$1,500.00) Dollars from Bond Fund 129, General Municipal Improvement Bonds 1936, for the payment of the cost of automobile transportation for engineers, overseers and other supervisors employed on the supervision of Unemployment Relief Projects, which was referred to me for an opinion as to the legality of paying for automobile transportation from a Bond Fund, I desire to say that if the engineers, overseers and supervisors are employed on the supervision of Unemployment Relief Projects, which are municipal improvements, then I can see no reason why the cost of transportation of them could not be paid from the Bond Fund as a proper item of expense in connection with the cost of the work, but the gist of the matter is that the work they are employed upon must come within the general classification of Municipal Improvements.

Respectfully yours,

THOMAS M. BENNER,  
City Solicitor.

No. 1941.

PITTSBURGH RAILWAYS COMPANY

436 Sixth Avenue

Pittsburgh, Pennsylvania

November 7, 1936.

The Mayor,  
President and Members of Council,  
City-County Building,  
Pittsburgh, Pa.

Gentlemen:

In the discussions which we have had with you relative to the possibility of working out a plan for the settlement of the pending bus litigation, it was suggested that it would be advisable for the Railways Company and the City to resume promptly the negotiations which were commenced several months ago looking to the formulation of an agreement which will pave the way for a solution of the broad transportation problem.

We heartily concur in this suggestion.  
The proposal which we are submitting

to you and the Public Service Commission for the settlement of the pending bus litigation is, in our opinion, a major step in the solution of this problem.

We also believe that the discussions which we have had during the past few months have resulted in substantial agreement on some of the basic principles which should be incorporated in any contract, viz:

1. That a unified and coordinated mass transportation system employing, to the proper extent, the modern street car, the gasoline bus and the trolley bus, is essential to the economic and social welfare of this community.

2. That the present transportation system is in need of prompt modernization.

3. That in order to effectively modernize the existing mass transportation system it will be necessary to secure new capital and that a sufficient amount of new capital cannot be secured until a financial reorganization of the Pittsburgh Railways System is effected.

4. That the Pittsburgh Railways Company should surrender the perpetual franchises of the companies which it controls, and the other companies comprising its system, if and when it acquires control of the latter companies; and should accept in lieu thereof an indeterminate permit form of franchise, the municipal authorities to have the power under such indeterminate franchise to terminate the same and take over the operation of the Railways property upon payment of the fair value thereof.

5. That a supervisory board shall be created, comprised of representatives of the City, the County and the other municipalities in which the Pittsburgh Railways Company operates, through the medium of which the municipal authorities may exercise a voice in the management of the Railways System.

6. That the Company should pay to the City, the County and the other municipalities in which it operates, an unconditional sum annually in lieu of its obligation to pave the streets within the area of its tracks and in lieu of its obligation to pay pole, wire and other taxes prescribed in its franchise ordinance.

I should like to point out at this time that substantial steps have already been taken by the Railways Company to modernize the mass transportation system, viz:

1. We have arranged for the purchase of 100 modern street cars at an estimate cost of \$1,500,000.00. We expect delivery of these cars to begin in December.

2. Application has been made to the Public Service Commission for permission to inaugurate 7 additional feeder bus routes. These routes will require the purchase of 21 buses at an estimated cost of \$44,100.00.

3. We propose to purchase 13 new buses for service on the existing feeder bus routes, at an estimated cost of \$27,300.00.

4. Steps are being taken to abandon certain street railway operations in the City of McKeesport and to extend the recently inaugurated bus route between Wilmerding and McKeesport into the business district of McKeesport.

5. Steps are also being taken to abandon the street railway line between Wilkinsburg and Oakmont and to substitute bus service.

6. We are contemplating the expansion of our garage facilities to accommodate the additional buses required by the foregoing plans, at an estimated cost of \$200,000.00.

As already stated, we heartily concur in the suggestion that negotiations be promptly resumed between the Railways Company and the City looking to a satisfactory solution of this all-important problem of mass transportation. To this end we are ready and willing to meet with you at your convenience.

Yours very truly,

F. R. PHILLIPS,  
President.

Proposal of Pittsburgh Motor Coach Company for settlement of pending bus rate and service litigation.

In pursuance of our recent proposal, we have endeavored to evolve a satisfactory plan for the settlement of the various proceedings now pending before the Public Service Commission involving the rates and service of the Pittsburgh Motor Coach Company.

In our judgment, the question of bus

rates and service is but one aspect of the broad problem of developing a modern, co-ordinated street railway, bus and trolley bus service in this district, the ultimate solution of which will involve, among other things, a satisfactory agreement upon transportation matters with the City of Pittsburgh and other municipalities and a financial reorganization and simplification of the Pittsburgh Railways Company System.

We believe that a continuance of the pending bus litigation, which might be drawn out through appeals to the courts for a number of years, will delay interminably the solution of this broad transportation problem and that in the end the results will not be satisfactory either to the public or to ourselves.

With this in mind, we wish to submit the following proposal, without prejudice to our legal rights in the event it is not accepted.

(1) We will reduce the minimum fare on all of the regular 25c routes to 15c cash, with ticket rates of 7 for \$1.00 and 15 for \$2.00; this reduction in fare to be accompanied by certain adjustments in the Wilkinsburg, Highland, Ben Avon-Bellevue, Frankstown and Oakmont via Sandy Creek Routes, which are shown on the accompanying plan.

(2) We will put the Pittsburgh Motor Coach Company out of existence and sell its property and franchises to the Pittsburgh Railways Company.

The proposed reduction in fare will no doubt result in some increase in riding on the bus routes. In order to meet this increased demand and in order to replace certain of the present buses, the Motor Coach Company will

purchase 46 modern buses, at an estimated cost of \$337,000.00. It will also be necessary to employ and properly train 71 additional drivers.

It is estimated that about six weeks will be required to obtain delivery of the new buses and to employ and train the new drivers.

This constitutes our proposal for the settlement of the pending bus rate and service litigation.

Which was read, received and filed.

And, at the request of Mr. Demmler, ordered printed in full in the record.

The Chair presented

No. 1942. Communication from R. H. Cole, Secretary, Oakwood Board of Trade, 28th Ward, 86 Oakwood road, Pittsburgh, Pa., asking for a hearing to present a petition opposing the movement of the Borough of Crafton to re-route No. 22 and No. 30, for east bound traffic.

No. 2010.

City of Pittsburgh,  
Office of the Budget Controller,  
November 21, 1936.

President and Members of Council,  
City of Pittsburgh.

Gentlemen:

With reference to Bill No. 1956, an ordinance creating temporary positions in the Bureau of Building Inspection, Division of Engineering.

My investigation reveals the fact that these two temporary positions are necessary in order to prepare the necessary plans and estimates for the construction of new additions at the City Home and Hospitals at Mayview, in order that application for grants be made to the Federal Government.

The present personnel of the City Architect's Office is inadequate to do this additional work at this time. My investigation reveals the fact that there are 16 jobs in the office of the City Architect at this time, most of them are small alteration and repair jobs in connection with the various departments of the City, where plans and specifications must be made and the proposals advertised for. Among these jobs there are 2 that will require considerable work, namely, preparing of plans and specifications for a sprinkler system at Mayview and the preparation of plans for new boilers at Mayview.

The salaries as set up in the ordinance, namely, \$275.00 per month for one estimator for a period of 60 days, and one architectural draftsman for 90 days at \$200.00 per month, are in line with salaries paid for this class of work.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

City of Pittsburgh.  
Office of the Mayor.  
November 30, 1936.

President and Members of Council,  
City of Pittsburgh.

Gentlemen:

Pursuant to the provisions of the City Charter, I submit herewith the printed budgetary requests of the various departments and other agencies covering their estimated requirements for the year 1937. These requests total \$23,362,164.00, the same being \$586,674.00 less than the amount appropriated by your Honorable Body for the year 1936, which included \$1,000,000.00 for Flood Emergency Relief. In view of necessary statutory increases in salaries and increases in the costs of supplies, this increase in budgetary requests over the normal 1936 appropriation is not excessive.

There is also included with the Budget a statement setting forth the estimated revenues of the City for the year 1937, which estimate is set in an amount of \$22,100,000.00 to be derived from taxes assessed for 1937 and estimated Miscellaneous Revenues for that year.

At my instructions the various department heads have sought to keep their estimates as low as possible in

an attempt to keep them within that income, which strictly considered, is the estimated income for 1937 applicable to that year, namely, the amount of taxes assessed plus the miscellaneous revenue applicable to 1937. This, however, was impossible to achieve in view of the reduction of the total assessment on land and buildings from \$1,211,867,890.00 to the estimate of \$1,070,000,000.00 especially since final information on the extent of the reduction has been made available only within the last few days. If Council maintains the present millage rate, this reduction would be equivalent to a reduction of taxes to the citizens of Pittsburgh of \$1,320,000.00.

In view of the cash situation of the City, however, it is entirely proper at this time to fall back upon these reserves of cash which are available to the City for its 1937 operations, namely, the cash balance which will be carried over and the collections of taxes and water rents and other items accrued during previous years.

From the standpoint of cash, the condition of the City's finances, projecting available cash through the year 1937 will be substantially, as follows:

|  |                 |
|--|-----------------|
| Cash balance carried forward, figures furnished by the Controller.....   | \$ 1,275,450.00 |
| Collections of 85% of 1937 taxes — 20.6 mills on \$535,000,000.00 land valuation and 10.3 mills on \$535,000,000.00 building valuation ..... | 14,050,000.00   |
| Miscellaneous Revenues:  |                 |
| Delinquent taxes prior years .....   | \$ 2,500,000.00 |
| Current year water rents .....   | 2,755,000.00    |
| Prior year water rents .....   | 390,000.00      |
| Penalties and advertising .....  | 260,000.00      |
| Business licenses (including liquor and beverage) .....  | 905,000.00      |
| Departmental fees and charges .....  | 545,000.00      |
| Fines and forfeits .....   | 175,000.00      |
| All other receipts.....  | 520,000.00      |
|  | \$ 8,050,000.00 |
| Total.....   | \$23,375,450.00 |

Your attention is directed particularly to the Supplemental Budgets aggregating the amount of \$2,042,732.00 and toward which there would be available in terms of cash on the above cash estimate the sum of only \$13,286.00.

These Supplemental Budgets represent expenditures all of which are highly desirable and most of which are very much needed for efficient administration and maintenance of the physical plant of the City, this latter comment applying particularly to the Department of Public Works. In the Department of Public Health no recommendation has been made as to the construction of a new Municipal Hospital, nor any improvements to Leech Farm, both highly desirable and which you will probably want to consider at length in Council.

You will desire presumably to consider whether or not any of the unexpended bond funds are applicable to any part of the items contained in the Supplemental Budgets as well as to the extent to which the cash margin here estimated to be available during the year may be increased.

It is fair also to say that the estimate of cash available next year may be increased, if by reason of the operation of the tax abatement law or extension of it the actual collections should exceed the estimate. In this connection it may be noted that for the year 1936 the estimate of delinquent tax collections exceeds the original Budget Estimates by \$957,850.00.

Coming out of the depression, as it is believed we are now doing, we are justified in living to a degree on the reserves which have been built up in this way.

It is believed that considerable work can be accomplished from available Federal Funds.

Very truly yours,  
CORNELIUS D. SCULLY,  
Mayor.

#### CITY OF PITTSBURGH OFFICE OF THE BUDGET CONTROLLER

November 30, 1936.

President and Members  
of Council,  
City of Pittsburgh.

Gentlemen:

With reference to Bill 2000, an ordi-

nance creating temporary positions of Architectural Draftsman and Stenographer in the Bureau of Sanitation, Department of Health, for estimating the cost and furnishing plans and specifications necessary to make application to the Federal Government for grant.

I have contacted Mr. Croak, Chief Engineer of the Department of Public Works, with reference to preparing the necessary plans, specifications and estimates for the incinerator plant. He states that they do not have anyone in any of their departments that is capable of directing this class of work.

Dr. Alexander, Director of the Department of Public Health, feels that this work can be done more advantageously in their own department, due to the fact that plans and specifications have already been made, and that they are capable of directing the necessary changes to be made in the present plans and specifications, to meet new requirements and to make the necessary estimates, in order to apply for a grant.

I would recommend these temporary employees be placed in the Department of Health.

The salaries as set up in this ordinance are consistent with salaries paid regular employees of the City in positions for similar work.

Respectfully yours,

RICHARD NEFF,  
Budget Controller.

City of Pittsburgh,  
November 24, 1936.

To the Mayor, the President and  
Members of the City Council,  
City of Pittsburgh.

Gentlemen:

Pursuant to your direction on Wednesday, November 18, 1936, the undersigned, accompanied by Engineer John H. Smith, on November 20, 1936 met in conference with Frank R. Phillips, President both of the Pittsburgh Railways Company and the Pittsburgh Motor Coach Company, Thomas Fitzgerald, Vice-President of the Pittsburgh Railways Company, and Messrs. Griffiths and Fleger of the legal staff of The Philadelphia Company.

The matters we were directed to discuss with the officials of these Companies were taken up.

Mr. Phillips stated the willingness of his Companies to withdraw from the proposal to settle the Rate Case against the Bus Company, that part of the same suggesting that the Pittsburgh Motor Coach Company would be put out of existence, and would sell its property and rights to the Pittsburgh Railways Company, and that they will be satisfied to continue the Pittsburgh Motor Coach Company as an independent operating corporation and unit.

It was further stated that as promptly as the Motor Coach Company pending litigation as to rates and service was either suspended or withdrawn, because of settlement as to rates and service, that the Pittsburgh Railways Company would forthwith and not later than two to three months from November 18, 1936, invoke the provisions of 77-B of the Bankruptcy Act, for the purpose of reorganization and the wiping out of the underliers of the Pittsburgh Railways Company, including the extinguishment of the fixed charges of said underliers, and consequently reduce materially the capital structure of the Pittsburgh Railways Company. Of course, no definite figure as to the capital structure of the proposed reorganization of the Pittsburgh Railways Company could be given because that is a matter to be settled by the Federal Court after hearings, etc. The proposed

reorganization plan being worked upon contemplates the issuance only of preferred and common stock, retirement of all bonds, rental agreements and other definite fixed charges as now obtain under the present set-up of the Pittsburgh Railways Company and its contracts with the underliers.

While it is expected that the City will give its moral support to any new bus fare agreement, it is not pledged to deny itself the right of bringing any new complaint to the Public Service Commission at any time it is dissatisfied with the service being rendered or the fare structure, nor is the City to be estopped from considering applications of any prospective competitors.

It was further stated that the Pittsburgh Railways Company not only will continue to maintain its present standard of service on the trolleys, but will amplify and increase that service as the demands of the public warrant and its finances will permit.

It is the desire of the officials of these Companies that an agreement be entered into between them and the City of Pittsburgh, whereby the City would have a voice in the management and operation of these Companies, so that a unified, coordinated, efficient and modern mass transportation plan can promptly be developed.

The following suggestions are therefore recommended:

1. That the Mayor and the Council authorize immediate negotiations be entered into with the Pittsburgh Railways Company, for a bus fare reduction as heretofore proposed by the Committee, namely, 15c for the cash rider, eight tickets for \$1.00 and Twenty tickets for \$2.00, and that the Pittsburgh Motor Coach Company immediately put into effect this new schedule of rates upon approval of the Public Service Commission and even before it shall have arranged to finance and put into operation the additional buses it proposes to purchase.

2. That the present through routes (namely, the 25c routes) remain as they are as to the streets used and stops made, until further study of any changes in said routing by the City, but that the increased service as contemplated by the data submitted to the Law Department, following the proposal

of the Motor Coach Company to reduce fares, be immediately inaugurated as soon as the new motor coaches are purchased and ready for operation.

3. That the Motor Coach Company agree to send to the City copies of all its agreements and contracts dealing with the expenditure of substantial sums of money in connection with the equipment, fuel, lubrication, parts, rental agreements, etc., and also agree that an accredited representative of the City shall have the right to check the monthly operating statements of the Pittsburgh Motor Coach Company, and to have a copy of the same or any data contained therein, and that the Pittsburgh Motor Coach Company agree to file a valuation of its assets and liabilities and keep same up to date, upon any reasonable request from the City.

4. The Mayor, President and Members  
of City Council,  
City of Pittsburgh,  
Pittsburgh, Penna.

Gentlemen:

Pursuant to your authorization, Mr.

John J. Kennedy, Special Assistant City Solicitor, conferred with us today regarding the proposed settlement of the pending bus rate and service litigation. We informed Mr. Kennedy that our position with respect to the proposals contained in the letter which he addressed to you on November 24th is as follows:

Subject to the approval of the Board of Directors of the Pittsburgh Railways Company and Pittsburgh Motor Coach Company, as well as the Public Service Commission of Pennsylvania.

1. We accept your proposal that the minimum fare on the regular 25c routes of the Motor Coach Company be reduced to 15c cash, 8 tickets for \$1.00 and 20 tickets for \$2.00. Immediately upon the approval by the Public Service Commission of the proposed issuance of \$750,000.00 of car trust bonds by the Railways Company and the loan of \$350,000.00 by the Railways Company to the Motor Coach Company for the purchase of new buses, the Motor Coach Company will file with the Commission a new schedule of rates incorporating this reduced rate, such new schedule to become effective within 60 days, this being the time required to obtain a sufficient number of new buses to enable the Motor Coach Company to furnish reasonably adequate service at the reduced fare.

2. We accept your proposal that the regular 25c routes be operated at the reduced fare in their present location and with the present stops until further study of possible changes in routing by the City, but that the increased service contemplated by the data recently submitted by the Motor Coach Company to the Law Department of the City be inaugurated as soon as the new buses are purchased and ready for operation.

3. We accept your proposal that the Motor Coach Company agree to send to the City copies of all of its agreements and contracts dealing with the expenditure of substantial sums of money in connection with its equipment, fuel, lubrication, parts, rental agreements, etc.; also that the Motor Coach Company agree that an accredited representative of the City shall have the right to check its monthly operating statements and to have a copy of the same or any data contained therein; also the

Motor Coach Company will agree to file with the City a statement of its assets and liabilities and to keep the same up to date.

4. We accept your proposal that negotiations be promptly commenced between the City and the Railways Company to arrive at an agreement in which the City shall have a voice in the service to be rendered and the fares charged; also that the City and the Railways Company shall cooperate as far as possible so that there shall be no delay in the Railways Company invoking the provisions of Section 77-B of the Bankruptcy Act for the purpose of effecting a financial reorganization, with the understanding that said agreement shall provide that upon the consummation of such reorganization the perpetual franchises held by the Pittsburgh Railways Company and such underliers as it controls shall be surrendered and that an indeterminate franchise be accepted in lieu thereof under the terms of which the City shall have the right to take over the Railways System at any time thereafter upon the payment of the fair value of the property.

We are willing to withdraw from our original proposal the suggestion that the Railways Company purchase all of the property and franchises of the Motor Coach Company and that the latter be put out of existence. However, we suggest that the Railways Company acquire (a) the feeder routes operated by the Pittsburgh Motor Coach Company and (b) the routes operated by the Pittsburgh Motor Coach Company which were substituted for unprofitable street railways lines. The routes referred to are, with minor exceptions, unprofitable and will continue to be so for an indefinite time. They are, for all practical purposes, operated as a part of the street railways system and the losses incurred in their operation should properly be borne by the Railways Company. Their disposition to the Railways Company would undoubtedly enhance the ability of the Motor Coach Company to conduct successfully its remaining operations at the reduced rate of fare and would afford a better opportunity to ascertain the merits of the reduced fare. Such action would also clarify the situation for rate making purposes.

It is our understanding that the City will recommend and support the applications of Pittsburgh Railways Company to the Public Service Commission for approval of (a) the issuance of \$750,000.00 of car trust bonds and (b) the loan of \$350,000.00 to the Motor Coach Company to enable the latter to purchase the necessary buses and render adequate service at the proposed reduced fare.

It is also our understanding that the City recognizes that the transportation needs of this district can be met most effectively and economically through the medium of a single, unified transportation system under one management, provided that management renders adequate service at reasonable rates.

Very truly yours,

F. R. PHILLIPS,  
President.

No. 2095.

City of Pittsburgh  
Department of Public Safety  
Office of the Director

December 7, 1936.

Chairman and Members,  
Committee on Public Safety,  
City Council.

Gentlemen:

Beg herewith to return copy of Bill No. 2014, An Ordinance amending and supplementing Sections 802, 803 and

804 of an ordinance entitled, "An Ordinance regulating traffic upon the highways and parks of the City of Pittsburgh and providing the procedure and penalties for and in connection with violations thereof", approved April 8, 1932, and recorded in Ordinance Book, Vol. 44, Page 503.

This amended Ordinance is in accordance with State Law and is in proper form.

Yours very truly,

GEORGE E. A. FAIRLEY,  
Director.

City of Pittsburgh,  
Department of Public Safety,

December 7, 1936.

Mr. George E. A. Fairley, Director,  
Department of Public Safety.

Dear Director:

In reference to Bill No. 2014. This bill was drafted by the City Solicitor's Office to bring about uniformity in statutory periods of enforcement under city and state traffic laws, and to put teeth into the enforcement of local laws.

The State Vehicle Code, Section 1212, paragraph "C", gives authority to municipalities to impose fines up to \$50.00 for violation of local ordinances, or in default thereof, to impose a jail sentence not exceeding 10 days.

Very truly yours,

DONALD M. McNEIL,  
Acting Traffic Engineer.

Which was read, received and filed.

Also

No. 2096.

City of Pittsburgh,  
Department of Law,  
December 5, 1936.

Mr. Edward A. Schofield,  
City Clerk.

Dear Sir:

On December 2, 1936, you requested a report from our Department as to whether Bill No. 2014, an Ordinance amending and supplementing Sections 802, 803 and 804 of Ordinance No. 106 of 1932, is in proper legal form.

Please be advised that the amending Ordinance was drawn by our Depart-

ment in accordance with the provisions of the Motor Vehicle Code of 1929 as amended. It is, therefore, our opinion that this proposed Ordinance is in proper legal form and in accordance with the statutes of the State of Pennsylvania.

We call to your attention, however, that the first section of Bill No. 2014 covers the same subject matter as does Councilmanic Bill No. 1406 of 1936, which Bill was presented by Mr. Anderson on August 26th and affirmatively recommended by the Committee on Public Safety on the same date.

We have incorporated the amending provisions of Bill No. 1406 in Bill No. 2014, in order to embody these amendments in the one ordinance rather than have several ordinances all amending the same original ordinance.

Very truly yours,

THOS. M. BENNER,  
City Solicitor.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

Ayes:—Messrs.

|           |                   |
|-----------|-------------------|
| Anderson  | Garland           |
| Demmler   | O'Toole           |
| Evans     | Weir              |
| Gallagher | McArdle, (Pres't) |

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. O'Toole presented

No. 2097. Report of the Committee on Health and Sanitation for December 1, 1936, transmitting an ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 2034. An Ordinance entitled, "An Ordinance amending Section 5 of Ordinance No. 416, approved Nov-

ember 24, 1936, entitled, 'An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Health to advertise for proposals and, subject to approval by the Committee on Health and Sanitation of City Council, to award a contract or contracts for the construction and operation of an incinerator plant or plants and for the collection and disposal of garbage and household rubbish, etc.'"

Which was read.

Mr. O'Toole moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Magee arose and said:

Mr. President: I want to ask a question about this, which may not be pertinent to the subject. I am informed by a representative of the American Reduction Company that his firm is unable to bid on the specifications prepared by the Department of Public Health under this ordinance, and the bids are to be opened on December 10th, which is Thursday. I do not know whether the Chairman of the Committee on Health and Sanitation knows what is contained in the specifications.

Mr. O'Toole arose and said:

I am familiar with the objections and complaints.

Mr. Magee said:

The complaint registered with me is that the American Reduction Company cannot bid on the specifications as prepared for the reason that the combustibles and non-combustibles must be kept in separate containers.

I would like to ask the Chairman of the Committee whether he is impressed with the complaint of this company and whether we should not have the specifications redrafted?

Mr. O'Toole said:

I am impressed with the objection, but for a different reason. The specifications call for collection in the same vehicle for garbage and rubbish, and it appears that that cannot be done as cheaply as if the garbage and rubbish were kept in separate containers. The

Company is equipped to collect this material if kept in separate containers.

There are other provisions in the specifications which are not only objectionable to the bidders, but in a sense objectionable to the citizens of Pittsburgh.

Mr. Magee said:

I do not see how anyone can expect to get this contract for a year's time except the American Reduction Company. The bidders who might bid on the incinerators and were awarded the contract could not function under that contract on the first of January.

For that reason, I must vote against this ordinance; and I want it understood that I am not voting against what I want to see accomplished, but the bill is defective on the provision of the bond, and for that reason I would rather see the legislation remain defective rather than see the legislation perfected by this amendment and thus permit the department to award a contract to an incinerator company to become effective on the first of January when such bidder would not be equipped to function on that date under his contract. I think, before passing this legislation, we ought to straighten out the department on its specifications.

Mr. Garland arose and said:

Mr. President: If we pass this amending ordinance today, it must go to the Mayor for his action. Mr. Magee, you say the bids will be received Thursday?

Mr. Magee said:

Yes, sir.

Mr. Garland said:

Mr. President: There is no mention made in the advertisement about the bonds.

Mr. O'Toole said:

In answer to Mr. Garland, I want to say that the specifications advise the respective bidders that the ordinance as drawn is defective and is about to be amended by this correct provision as to the bond. The original ordinance, if you will remember, requires approval of all contracts by Council for both collection and disposal. So no harm is done by the passage of this amendment. We are not placed in any worse position. We might be placed

in a better position if the correct position as to the bond is taken.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

|          |           |
|----------|-----------|
| Anderson | Gallagher |
| Demmler  | O'Toole   |
| Evans    | Weir      |

Ayes:—Messrs.

|         |                   |
|---------|-------------------|
| Garland | Magee             |
|         | McArdle, (Pres't) |

Ayes 6. Noes 3.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Demmler presented

No. 2183. RESOLVED, That the appointed by the Mayor of Theron B. Hamilton as Assessor in the Department of City Assessors be and the same is hereby approved and confirmed.

Which was read.

Mr. Demmler moved

The adoption of the resolution.

Mr. Demmler arose and said:

Mr. President: During the administration of Mr. McNair, Council frequently referred nominations to the Committees for consideration. There are arguments in favor as well as against that procedure. I do not favor this principle and rather lean toward the position that the Mayor's appointments should be promptly confirmed or rejected. In conversation with the Mayor,

when I was asked about appointments, I stated that in the matter of Police Magistrates, I felt that these men are to be the direct representatives of the Mayor, and as such, are accountable to the Mayor. The Mayor should have the right to appoint Police Magistrates of his own choice, and since he has sent these nominations to Council, I will vote to confirm them.

And the question recurring on the adoption of the resolution, the ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

|           |                   |

Mr. Weir presented

No. 2192.

WHEREAS, The City Council has temporarily suspended action on the Resolution for a rate case against the Parmelee System, in order to permit the latter to offer an amicable adjustment of the present exorbitant taxicab fares, and

WHEREAS, The Parmelee System has not indicated a disposition to deal with us frankly and in a business-like manner, but has sought to forestall action by introducing an imaginary labor issue, for the purpose of embarrassing this body, and

WHEREAS, During the pendency of the matter, another company has indicated the desire and ability to provide proper service at reasonable rates, and

WHEREAS, Our negotiations with the Parmelee System are consuming time which may be utilized for preparing for other action, in the event such negotiations are not concluded satisfactorily,

Now, Therefore, Be It Resolved That, The City Solicitor should examine the procedure for lending the active support of the City of Pittsburgh to an application of a responsible company to the Public Service Commission for

authority to operate taxicabs in Pittsburgh, and that

The City Solicitor should consult with such other company or companies for this purpose in such manner as to the Solicitor seems proper.

Which was read.

Mr. Weir arose and said:

Gentlemen:

With reference to the Resolution which I am now introducing, its main purpose is self-explanatory.

This action on my part is motivated by two considerations:

FIRST. The Sun Cab Company of Baltimore has offered a proposition which appears sound, but which should, of course, be thoroughly investigated. The Law Department should be prepared to aid in securing a permit, if we decide upon such a course. There may be other offers, and the Solicitor should be free to entertain such offers and inquire into the financial responsibility of those who make them.

SECOND. I still have no thought of closing the door to a proper proposal by the Parmelee System. So far, however, the action of this company has been noted by their effort to drag a scarecrow into the negotiations. They have sought to make it appear that a rate reduction would require a wage reduction for the drivers. On the contrary, the increased use of cabs which would result from a real slash in fares, would most certainly lead to increased earnings by the drivers. Besides, there would be more drivers employed.

Our dealings with Parmelee are not concluded, and I take no position to prevent their continuance, but the Company had better become thoroughly aware of the fact that we are serious in our demand for rates much lower than the present ones.

The Chair stated

That the resolution would be referred to the Committee on Public Service and Surveys.

And it was so referred.

Mr. O'Toole presented

No. 2193. WHEREAS, The boroughs and townships of Allegheny County have a joint interest with the

City of Pittsburgh in the proposed reorganization of the Pittsburgh Railways Company to the end that better service and lower fares can be obtained; Therefore, Be It

RESOLVED, That the City Solicitor be and he is hereby authorized and directed to invite the Solicitors of the various boroughs and townships of Allegheny County to join with him in making adequate preparation to protect the interests of the residents of all the municipalities in whatever legal actions or proceedings are contemplated or undertaken for the reorganization of the Pittsburgh Railways Company.

Which was read.

Mr. O'Toole moved

The adoption of the resolution.  
Which motion prevailed.

Mr. O'Toole moved

That the following members be

excused for absence from Council and Committee meetings:

Mr. Anderson, September 17-21-22-24;  
October 2-6-7-8-13-14; November 16-17-18-19-23-24-25, 1936.

Mr. Weir, November 25, 1936.

Which motion prevailed.

Mr. Weir moved

That the Minutes of Council of Monday, December 7, 1936, be approved.

Which motion prevailed.

And upon motion of Mr. Garland

BETTER TRAFFIC COMMITTEE

December 24, 1936.

Mr. Edward A. Schofield,  
City Clerk,  
City of Pittsburgh.

Dear Sir:

In reply to your letter of December 23, with reference to an ordinance providing penalties for violation of parking regulations on the streets of Pittsburgh:

At its meeting of December 10, the Better Traffic Committee adopted the following motion in this regard:

"That the City traffic laws regarding illegal parking be amended so that the penalty for the first offense be \$1.00, and the penalty for the second and subsequent offenses within a period of 12 months be from \$3.00 to \$50.00, at the discretion of the Magistrate, or, in default thereof, a jail sentence not to exceed ten days be imposed."

The only point of difference between this suggested amendment and Bill No. 2196 of City Council is that the Committee favors more stringent penalties for offenses beyond the first. The suggestion and the bill are alike in principle, having a heavier penalty for second offenders and having a jail sentence in the alternative.

It is impossible to have official action taken by the Better Traffic Committee in time for the requested reply by Monday noon, December 28. However, I am of the opinion that the proposed ordinance, agreeing in principle with the suggestion of the Better Traffic Committee, meets with their approval.

Respectfully yours,

Better Traffic Committee,  
NILES ANDERSON,  
Education Secretary.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

WHEREAS, under and pursuant to an Ordinance of the City of Allegheny approved November 14, 1902, and recorded in Ordinance Book Volume 11, Page 294, the Western Pennsylvania Railroad Company, now merged with The Pennsylvania Railroad Company, changed the elevation of said iron bridge or through truss span and raised said bridge about eighteen feet by the construction of additional concrete masonry on top of the original stone piers, and, at the same time, elevated Bridge street by constructing an overhead viaduct and approach above and across certain railroad tracks to connect the Westerly end of said iron bridge with East Ohio street, together with a ramp leading down from said elevated roadway to River avenue, and also constructed an elevated roadway and approach on Herrs Island connecting the Easterly end of said iron bridge with the ground level of the Island, together with a ramp leading therefrom to Franklin street on the Island; and,

3. That from the date of this Agreement the City of Pittsburgh will maintain, repair and renew when necessary the said iron bridge or through truss

span across the back channel of the Allegheny River connecting the two parts of Bridge street aforesaid, except that part of the supporting piers erected in 1903 pursuant to Ordinance of November 14, 1902, aforesaid, being about eighteen feet of concrete masonry erected upon the original stone piers of said bridge.

4. That from the date of this Agreement The Pennsylvania Railroad Company will maintain, repair and renew when necessary the aforesaid approaches and elevated roadways which constitute parts of Bridge street as elevated in 1903, and which lead on to said iron bridge crossing the back channel, including the approach and overhead roadway on the Easterly end leading down to the ground level of Herrs Island, the approach and overhead roadway, together with the supporting structures thereof, extending from the Westerly end of said iron bridge to East Ohio street, and the ramp running off the Southerly side of Bridge street to the ground level of River avenue; also that portion of the piers supporting said bridge constructed in 1903 as aforesaid, in connection with the elevation of said iron bridge.

## No. 187

**AN ORDINANCE**—Supplementing and amending Ordinance No. 318 of 1921 entitled, "An Ordinance regulating the design, erection, and the use of building materials, systems, units and forms of construction; authorizing the Superintendent of the Bureau of Building Inspection to issue approvals and disapprovals of building materials, systems, units and forms of construction; extending the right to any manufacturer, agent or local representative to conduct tests to prove the strength and suitability of his building material, systems, units or form of construction for the purposes for which it is intended to be used; providing regulations for the conduct of tests and test standards for the strength and suitability of building materials, systems, units and forms of construction; all with a view to preventing danger to and loss of life or damage to property from unsafe or improper construction or design of buildings; and providing penalties for violations of the provisions, herein," approved July 13, 1921, by adding to Section 5 a new Paragraph (f) relating to "Rolled Structural Steel Piles."

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That* Section 5 of Ordinance No. 318 of 1921 be supplemented and amended by the addition of a new paragraph as follows:

(f) 1. **ROLLED STRUCTURAL STEEL PILES:** Rolled structural steel piles shall conform as to material to the requirements of Section 4 **MATERIAL**, City of Pittsburgh, Steel Regulations, Series of 1925, Ordinance No. 341. Sections of such piles shall be of H form, with flange projection not exceeding

12 times the minimum thickness of metal in either web or flange and with total flange width at least 85 per cent of the depth of the section. No section shall have a thickness of metal less than 7/16 of an inch nor a depth in the direction of the web of less than 8 inches.

All rolled structural steel piles 30 feet or less in length shall be unspliced section. If splices are used in piles of greater length, such splices shall be made with the pile sections in full contact and the type of splice shall be such as will resist driving shock and maintain perfect alignment of the pile. A reduction of 5 per cent shall be made in the allowable load on the pile for each splice in excess of one.

Provisions for transferring the load into the piles shall be made by means of plates, caps or other devices consistent with the provisions of the regulations contained in Ordinances of the City of Pittsburgh covering stresses in materials used in structures.

Rolled structural steel piles shall not be used through cinder or ash fill, or other active rust inducing material, without adequate provision for the protection of the piles.

The compression stress in rolled structural steel piles shall not exceed 10,000 pounds per square inch of gross section when the soil furnishes continuous adequate lateral support. When such piles are driven through silts or soft clays, or are otherwise not supported against lateral movement throughout their full length, the direct axial stress shall be reduced to 86-2/3 per cent of the stresses prescribed in subparagraph (b) Compression, Section 6 **ALLOWABLE STRESSES**, City of Pittsburgh, Steel Regulations, Series of 1925, Ordinance No. 341. For determining the allowable stress, such piles shall be considered as having a length 1-1/2 times the length of the portion of the pile within the soft material, with the full length of the pile as the limit. Splices occurring in unsupported lengths of piles shall develop full section strength.

**II. ROLLED STRUCTURAL STEEL PILES DRIVEN TO BED ROCK:** When driven to refusal with a steam hammer of approved adequate weight and

type to full end bearing on bed rock, rolled structural steel piles shall have the following maximum allowable capacities:

| Nominal Size of<br>Piles in Inches<br>(Average Side to<br>Nearest Inch) | Maximum<br>Allowable<br>Capacity<br>in Tons |
|---|---|
| 8   | 40  |
| 10  | 45  |
| 12  | 55  |
| 14 and over   | 65  |

The minimum spacing of such piles shall be not less than 24 inches nor less than twice the maximum dimension of the side of the pile. Where rolled structural steel piles are intended to found on rock adequate boring data shall accompany the application for permits, to determine bed rock evaluations. Such boring data shall be at least equivalent to those required by "Soil Tests" sub-paragraph (c) Soil Bearing Capacity, (7) Safe Working Stresses, Section 5 CALCULATIONS FOR SAFE-CARRYING CAPACITY of this Ordinance.

**III. ROLLED STRUCTURAL STEEL PILES DRIVEN TO MATERIALS OTHER THAN BED ROCK:** When driven to materials other than bed rock, the allowable load on rolled structural steel piles shall be determined as prescribed by the following formula:

$$P \text{ equals } (2WH) \text{ S plus 1}$$

$$P \text{ equals } (2WH) \text{ S plus 1-10}$$

In which:

P—Safe sustaining power in case drop hammer is used.

P'—Safe sustaining power in case steam hammer is used.

H—Height of drop in feet.

S—The average penetration of the pile in inches under the last five blows.

W—Weight of the hammer in tons.

Or by pile loading tests as follows:

Tests shall be made with 150% of the proposed load and shall be considered unsatisfactory and the results unacceptable if, after standing 24 hours without settlement, the total net settlement after deducting rebound is more than 0.01" per ton of total test load,

with the limitation that no such pile shall have an allowable bearing capacity exceeding 30 tons unless it shall have been driven more than 40 feet into the ground, or unless it shall have been driven to refusal in hard pan, or in gravel and boulder formation, which is not underlaid by a softer stratum, in either of which cases the maximum load per pile may be 40 tons. In no case shall the spacing of the piles be such that the supporting strata shall be loaded more than is specified in "Presumptive Capacities" in sub-paragraph (c) Soil Bearing Capacity, (7) Safe Working Stresses, Section 5 CALCULATIONS FOR SAFE-CARRYING CAPACITY of this Ordinance, except that, if the surface of the natural material on which the load is to be applied is at a depth greater than 10 feet below the level of the lowest adjacent curb, then these unit loads may, in the discretion of the Superintendent of Building Inspection, be increased by 100 pounds for each foot of depth in excess of 10 feet, but the maximum increase allowable for increased depth shall be 50 per cent of the allowable presumptive bearing capacity for the soil upon which the foundation is to rest.

Section 2. That any ordinance or part of ordinance, conflicting with the provisions of this ordinance, be and the same is hereby repealed, so far as the same affects this ordinance.

#### MOTIONS AND RESOLUTIONS.

The Chair presented

No. 562.

City of Pittsburgh,  
Office of the Mayor.

April 11, 1936.

To the President and  
Members of City Council.

Gentlemen:

I have the honor to inform you that I have appointed, subject to your approval, Richard E. Howe to the position of Director of the Department of Public

Welfare, and would ask for immediate confirmation of same.

Very truly yours,

WM. N. McNAIR,  
Mayor.

Which was read, received and filed.

Mr. Gallagher presented

No. 563. RESOLVED, That the appointment by the Mayor of Richard E. Howe to the position of Director of Public Welfare shall be and the same is hereby disapproved.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.

Mr. Gallagher arose and said:

Mr. President:—With respect to this appointment, I wish to state that I have information that Mr. Howe has not been a resident of the City of Pittsburgh the required length of time provided by law. Mr. Howe has only been here 20 months. During that period he has held four positions. I have the record as taken from the books of the Civil Service Commission.

Mr. Howe was appointed Cost Clerk on Unemployment Relief Work in October, 1934 and resigned February 27, 1935. He was appointed to the position of stenographer-clerk in Traffic Court February 28, 1935, and resigned August 31, 1935. He was appointed investigator in the Department of Law September 4, 1935, and resigned December 4, 1935. On December 5, 1935, he was appointed a Clerk in the Municipal Improvements Division of the Law Department.

The person who occupies the position of Director of the Department of Public Welfare should be one experienced in social welfare work. This is one of the most important positions in the City service—dealing with unfortunate human beings. This department has under its care thousands of unfortunate people.

Council should disapprove all appointments to this position unless the appointee is qualified and experienced in this kind of work. This position requires a man with special training. Council should not consider men such as the Mayor has been submitting for the past three months.

Those are my sentiments, and I think

the other members of Council will agree with me.

Mr. Magee arose and said:

I wish to speak against the motion, Mr. President. I think that a record ought to be made of the qualifications of each of the appointees according to the manner in which he cares to state them himself. The only way we can have that done is to have the appointee before us. If the motion is pressed, I will not vote one way or the other. I prefer to follow the procedure we have already begun.

And the question recurring on the adoption of the resolution, the ayes and noes were ordered taken agreeably to law, and were:

Ayes:—Messrs.

|           |                  |
|-----------|------------------|
| Anderson  | Garland          |
| Demmler   | McArdle          |
| Gallagher | Weir             |
|           | Scully, (Pres't) |

(Mr. Magee not voting).

Ayes 7. Noes none.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. Garland presented

No. 564. WHEREAS, The standard time established by law throughout the Commonwealth of Pennsylvania is the mean solar time on seventy-five Meridian west of Greenwich, which standard is hereby specifically recognized as the legal and proper standard for the City of Pittsburgh, as well as for every other portion of the Commonwealth, and

WHEREAS, It has become more and more apparent that the virtually unanimous sentiment of the population of Pittsburgh is in favor of the saving of one extra hour of daylight during the summer months of each year, Therefore, be it

RESOLVED, By the Council of the City of Pittsburgh, That in order to carry into effect such unanimous desire and without infringing upon the legal standard time as fixed by statute, the people of the said City be, and they are hereby requested to so regulate their business and affairs that one hour

of daylight may be saved during said period and for that purpose that they be further requested and invited to advance their clocks, watches and time-pieces at two o'clock Ante Meridian for one hour on the last Sunday of April, and to retard or turn back said clocks, watches or time-pieces one hour at two o'clock Ante Meridian on the last Sunday of September, and be it further

RESOLVED, That in order to facilitate and conform to such change during the said period and to promote uniformity, the various departments and bureaus of the City government and other public officials within the City of Pittsburgh, be, and they are hereby requested to so arrange their business that the time of public employment may begin one hour earlier each morning and wherever it may be practical and legal so to do, that such time of employment shall cease one hour earlier than at the present time. Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed by an unanimous vote.

Mr. McArdle arose and said:

Mr. President:—I want to call attention to the fact that in one or two of the bills authorizing contracts for improvements growing out of the flood situation the use of the word "emergency" is applied in connection with the authorization. Council amended one bill by striking out that word.

I want to offer a motion, that any and all departments having jurisdiction over contracts for improvements growing out of the flood situation, be notified it is the sense of Council that this word "emergency" is not to be construed as authorizing them to let contracts other than in the ordinary fashion provided by law.

Which motion prevailed.

Mr. McArdle moved

That the Minutes of Council of Monday, April 6, 1936, be approved.

Which motion prevailed.

And on motion of Mr. Garland

Council adjourned.

#### MOTIONS AND RESOLUTIONS

Mr. Gallagher presenttd

No. 607. WHEREAS, Attention has been called in the public press to the fact that the facilities at the Municipal Hospital are not sufficient to provide against a contingency of any major epidemic; and

WHEREAS, from time to time the desirability of the construction of a County hospital of the same type or of a joint City-County hospital has been under discussion; and,

WHEREAS, at this time there are not sufficient City funds available for the replacing of this hospital by a new one; and,

WHEREAS, There is a possibility of the construction of a satisfactory hospital sufficient for the needs of both City and County by a joint arrangement through the co-operation of the Federal Government by a grant of funds; Therefore, be it

RESOLVED, That the Chairman of the Committee on Health and Sanitation be instructed, with a Committee of his own choosing, to take up with the Poor Board of Allegheny County, this matter, and after canvassing the situation, make recommendations to this Body in regard thereto.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.

Mr. McArdle arose and said:

Mr. President: I doubt the wisdom of passing this resolution in its present form. I, of course, have full appreciation of the intent that lies back of it, but it carries an implication that so far as I see this problem, ought to be avoided until it is presented as a necessity. As I see the problem, and as it has been discussed here for many years, it is not a problem peculiar to Pittsburgh. It is a community prob-

lem. It has to do with the public handling of all sorts and kinds of contagious diseases, and so far as it has been publicly discussed it carries very far beyond the broadly accepted responsibility of the Poor Board of Allegheny County in caring for contagious or transmissible diseases.

The thing that strikes me is that it implies what was implied in a program a few years ago, to have such a building constructed, and at that time it was in the minds of those who proposed it that they should spend \$6,000,000.00. That expenditure, if made, would be divided between the taxpayers of the City of Pittsburgh and Allegheny County, and it is that implication that this resolution carries to which I refuse to commit myself.

It ought to rest only with a proposal to have the subject considered in company with those who are both informed and interested, with a view to determining whose problem it is, and when that is determined, to determine how best to meet it if the circumstances are such that they can be met now. I see very great merit in the suggestion made that we might get Federal aid.

The creation of a voluntary act of the City itself that it will assume or put itself in the position of an assumed expressed willingness to take over half of this, and then have our taxpayers take over more than half of the County cost is not equitable and fair.

That boundaries cannot be limited to the City of Pittsburgh, because these transmissible diseases do not recognize any territorial limits, and, to most people who have listened to a discussion of this subject, recognize that the narrowest limits it could be put to would be Allegheny County; and the thing that I am talking about may not be a real danger if it is dealt with the Poor Board, but the real danger as I see it is our launching the proposition with a sort of expressed willingness to commit ourselves as to what we will do.

We ought to have a discussion about it with those who are interested and informed and determine first whose problem it is and then how to meet it. I would like to ask, if there is

no objection on the part of the mover of the motion, that action be withheld on the resolution until some of the points I have raised are cleared up, before making commitment to it in its present form.

Mr. Gallagher arose and said:

Mr. President: I was prompted to present this resolution because of the various news articles appearing in the daily press condemning and criticizing Council for conditions existing at the Municipal Hospital. I made a personal inspection of the hospital, and so have several other members of Council.

While I do not agree that the fire hazard is as bad as it has been pictured, they do not have the facilities to meet a major epidemic, and that is the reason I presented this resolution.

I know the County Poor Board is sympathetic towards the question. This resolution does not obligate the City to an expenditure of money. It merely directs the Chairman of the Committee on Health and Sanitation to arrange a conference with the Allegheny County Poor Board to see if we cannot make arrangements satisfactory to the City and County for the construction of a joint contagious disease hospital.

While the present buildings, with the exception of one, are being occupied, the fact remains, under ordinary conditions, the hospital is overcrowded due to this one section being condemned for occupancy.

The purpose of my resolution is to have a conference with the Allegheny County Poor Board, to see if we cannot work out some solution of this problem. I do not want to commit the city to any definite program.

Mr. Anderson arose and said:

Mr. President:—I think the resolution should be held over. The gentleman said he made an inspection of the hospital with the members of Council.

Mr. Gallagher said:

Mr. President:—I said some other members.

Mr. Anderson said:

Mr. President: The Council should understand the position of the department. From what the newspaper says, we need a new hospital, and the gentleman says so. I think we ought

to hear from the department before we pass the resolution. I think that is the proper thing to do.

Mr. Evans arose and said:

Mr. President:—I want to remark on the motion that not long ago I made an inspection of the Municipal Hospital. One of the buildings is out of commission due to cracks in the wall, but it can be remedied. It is not at all dangerous. The building could be repaired and made fit for occupancy in my opinion. The recommendation was made at that time that measures be taken to make the building absolutely safe by putting some underpinning under the foundation, which could be done at small cost.

I have no objection to a conference on this matter. I think we have adequate capacity in the present hospital for present needs, and therefore we should consider the matter with care before committing ourselves definitely to any proposition.

The Chair said:

What is the pleasure of the mover of the motion?

Mr. Gallagher arose and said:

Mr. President:—I am agreeable to have it lay over until we have a conference with the Director of the Department of Public Health. I am trying to protect the Council from criticism when it understands the situation. I for one do not intend to sit by and be criticized for inaction when the facts are known.

Mr. McArdle arose and said:

Mr. President:—I would advise Mr. Gallagher, if he sits here long enough, that he take something to thicken his skin.

Mr. Gallagher said:

I will give punch for punch.

Mr. McArdle said:

I want to say that you don't punch back when somebody is criticizing you. You ought to have your eyes directed to the fellow who pays these bills.

The Chair said:

Will you withdraw your motion?

Mr. Gallagher said:

I will withdraw the motion, Mr. President.

The motion, with the consent of the seconder, was withdrawn.

Mr. Gallagher moved

That the resolution be referred to the Committee on Health and Sanitation.

Which motion prevailed.

Mr. McArdle moved

That the Director of the Department of Public Health be requested to ask the City Architect, through the Director of the Department of Public Safety, to prepare an estimate of the cost of repairing and putting in a condition safe for occupancy for the purpose for which it was built, the building known as Wards D and E at the Municipal Hospital, and to transmit said estimates to Council immediately on receipt of same.

The Chair said:

May the Chair ask you to include some statement as to the cause of that slip or break, so that it can be determined whether it is due to an old abandoned coal mine, or some slip in the rock, to include in his estimate the cost of such restoration?

Mr. McArdle arose and said:

Mr. President: I think possibly that would be developed in explaining the basis of his estimate. I think Mr. Evans can bear me out that there have been various reports and studies made of this, and so far as I have read in the written reports there is no evidence that there is anything involving a coal mine. I agree with Mr. Evans that the building can be put in shape at small expense, and I think it is a crime to keep it out of commission for the small amount of money that it requires. It can and should be put back in shape for occupancy as it is the best part of the hospital allocated to the patients there.

And the question recurring on the motion, as offered by Mr. McArdle.

The motion prevailed.

Mr. Evans presented

No. 608. WHEREAS, It is the sense of the Council of the City of Pittsburgh that there is urgent need for the construction of low-cost housing for the working people of our City; and,

WHEREAS, There exists in the City of

Pittsburgh an acute shortage of houses which are within the means of our working people; and,

WHEREAS, This situation has been greatly increased due to the recent flood, which inundated approximately 13,000 houses in the lower sections of the City, of which about 1,000 will never again be fit for occupancy; and,

WHEREAS, During the past year and a half more than 1,500 houses have been demolished by our Public Safety Department due to their dangerous and unsanitary condition; and,

WHEREAS, The private building interests of our City have been unable to cope with the situation in the construction of houses that may be rented at a reasonable rental, within the reach of our working people; Therefore, be it

RESOLVED, That the Council endorse the Housing Act of 1936, now under consideration in Congress and known as the Wagner-Ellenbogen Bill, which provides for the financing and construction under Government supervision of low-cost housing projects; And, be it further

RESOLVED, That the City Clerk be requested to send a copy of this resolution to Franklin D. Roosevelt, President of the United States; Secretary Harold L. Ickes; Senator Wagner of New York, and to each United States Senator and Representative in Congress from the State of Pennsylvania.

Which was read.

To the President and  
Members of City Council.

Gentlemen:

I am returning, without my signature, Bill No. 454, since the slow payments of taxes have made the condition of the City Treasury such that we should economize wherever possible. At some later date, when the finances of the City are in better condition, this matter can be taken care of.

Sincerely yours,

WM. N. McNAIR,  
Mayor.

Which was read, received and filed.

Also

Bill No. 454. Resolution authorizing and directing the City Controller to transfer the sum of \$5,000.00 from Code Account No. 42, Contingent Fund, to Code Account No. 52, Tri-State Au-

thority, because of the necessity for additional funds to meet the expenses caused by the preparation and presentation of data relative to flood control legislation, the demand for which has been revived by the recent great floods in Western Pennsylvania and other districts.

In Council, April 6, 1936, Read, rule suspended, read a second and third times and finally passed.

Which was read.

And on the question, "Shall the resolution become a law notwithstanding the objections of the Mayor?"

Gentlemen:

I am returning, without my signature, Bill No. 491, as the cost of the libraries is mounting every year and I think that more pressing things of the City should be met before we increase our library expenses.

Sincerely yours,

WM. N. McNAIR,  
Mayor.

Which was read, received and filed.

Bill No. 491. An Ordinance entitled, "An Ordinance authorizing a lease for a building now used for library purposes by the Carnegie Free Library of Allegheny, situated on Brighton road near Woods Run avenue and owned by Mathilda M. Cochrane and Anna B. Dietrich."

In Council, April 13, 1936, Bill read, rule suspended, read a second and third times and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. McArdle arose and said:

Mr. President: In view of the language used in the letter from the Mayor returning the bill, implying that this is an increase in the expenditure for library service on the North Side, I think it ought to be observed that this is merely a renewal of a lease for property which has been in existence for many years, and the failure to provide for its continuance would result in the necessity of discontinuing that branch of the library in that district. Such action would, perhaps, decrease the expenditure for library purposes for this year, but it would not increase the expenditures for it is already provided for in the budget and has been for many years.

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Members of City Council.

Gentlemen:

I am returning, without my signature, Bill No. 481, as the Works Progress Administration should take up their projects with the executive branch and the various members of the Cabinet, which their matters would affect, and not

through the City Council.

Sincerely yours,

WM. N. McNAIR,  
Mayor.

Which was read, received and filed.

Also

Bill No. 481. Resolution authorizing Robert Clark, City Clerk, to act as sponsor, representing the Council of the City of Pittsburgh, of Works Progress Administration Project No. 4930, and to perform all duties in connection with the reinstatement and completion of said Project.

In Council, April 13, 1936, Read, rule suspended, read a second and third times and finally passed.

Which was read.

And on the question, "Shall the resolution become a law notwithstanding the objections of the Mayor?"

Mr. Evans arose and said:

Mr. President: This is a project for the completion of the survey of the delinquent taxes of city property. It is perhaps one of the most important pieces of work that has ever been undertaken by the Works Progress Administration. It was begun under the old administration, I believe, and known as C. W. A., and is about two-thirds completed. It consists of making Atlases, similar to the Atlases in the Assessors' Office. These maps cover the entire city on which are noted every piece of property on which there is delinquent taxes, so that it will be possible for the City Treasurer or the Controller, or the City Assessor, to locate at a moment's glance, without examining the records in the Recorder's Office and the Prothonotary's office, and determine how much taxes remain unpaid against the property. There is also indices, which enable you to look up and locate by page any piece of property. It goes back to the beginning and will enable the completion of these maps, some of which go back 25 or 30 years. There are items on the books on which there is a \$6.00 tax and the City has spent many times that amount in advertising. Therefore, in these remarks, I want to say in regard to the Mayor's statement that some other department of the city government should sponsor the project, this project has been lying before him for

six months and he has taken no action whatsoever. I should say for almost nine months he has not taken any action despite the importunities of Mr. C. C. C. Stotler. The City Planning Commission has been afraid to take it up because of the rather uncertain position in which they might find themselves in connection with their jobs. I think this important project should be sponsored by City Council.

Mr. Garland arose and said:

Mr. President: We are doing an administrative function. I voted for it originally, but I will not vote to override the Mayor's veto. We have no right to take on administrative duties.

Mr. Anderson arose and said:

Mr. President: I feel it is a good thing, and if the Mayor does not act we should act. If we are wrong, he should take us into court.

Mr. Garland said:

Mr. President: I want to say again that I would like to vote for the resolution. I voted for it in the first place hoping it would escape the Mayor's objection. I know you, as a lawyer, will say it is not our duty to do this. It is trying to beat the Devil around the stump.

Mr. McArdle arose and said:

I hope the stump gets out of the way.

And the question recurring, "Shall the resolution become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

|          |                 |
|----------|-----------------|
| Anderson | Gallagher       |
| Demmler  | McArdle         |
| Evans    | Weir            |
|          | Scully (Pres't) |

Noes:—Mr. Garland.

Ayes 7. Noes 1.

And there being two-thirds of the votes of Council in the affirmative, the resolution become a law notwithstanding the objections of the Mayor.

The Chair also presented

No. 614.

City of Pittsburgh,  
Office of the Mayor.

April 17, 1936.

To the President and  
Members of City Council.

Gentlemen:

I am returning, without my signature, Bill No. 441, as I do not think this is a good time to buy any property for playgrounds, this total expenditure being about \$11,000.00. We should delay purchasing playgrounds until the finances of the City are in better condition.

Sincerely yours,

WM. N. McNAIR,  
Mayor.

Which was read, received and filed.

Also

Bill No. 441. An Ordinance entitled, "An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Works to purchase from T. W. Long and Lulu L. Long, his wife, and August F. Abel and Flora V. Abel, his wife, certain property situate in the 19th and 20th Wards, Pittsburgh, for public purposes, and providing for the payment of the same."

In Council, April 6, 1936, Bill read, rule suspended, read a second and third times and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. Garland arose and said:

Mr. President: Does it show that taxes come out of this \$11,000.00? In other words, it is not to the extent of \$11,000.00.

Mr. McArdle said:

There are nearly \$2,000.00 in back taxes involved in the transaction. I just want to refer to what I said in committee. This bill came to Council after the Council passed a condemnation

ordinance nearly a year ago. This was done for reasons which he may know, but I don't know, or the responsible public officers may know, but I don't know. The responsible public officers took no steps to prosecute the ordinance, and took this course as the way to do it. We passed it and now it is vetoed.

Mr. Demmler arose and said:

Mr. President: I wish to state while I opposed the original purchase, and since the motion had been carried and also this bill had been carried, I will vote to override the Mayor's veto even though I did oppose the original purchase.

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

|           |                  |
|-----------|------------------|
| Anderson  | Garland          |
| Demmler   | McArdle          |
| Evans     | Weir             |
| Gallagher | Scully, (Pres't) |

Ayes 8. Noes none.

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

Mr. Garland moved

That the Minutes of Council of Saturday, April 11th, and Monday, April 13, 1936, be approved.

Which motion prevailed.

The Chair announced that the Committee on Finance would meet immediately upon adjournment of Council.

And on motion of Mr. Gallagher

April 24, 1936.

Subject: Bill No. 590.—An Ordinance  
Authorizing an Agreement with the  
Pittsburgh Rys. Co. for Temporary  
Abandonment of Northbound Tracks  
on a Portion of Wood Street.

To the Honorable, the Committee  
On Public Service and Surveys  
of Council.

Gentlemen:

In reference to Bill No. 590, being an Ordinance authorizing an agreement with the Pittsburgh Railways Company for the temporary abandonment of the northbound street railway track on Wood street, from a point near the north property line of Diamond street to a point near the south property line of Third avenue, we wish to report as follows:

General Ordinance No. 347, Series of 1929, approved May 16, 1929, which ordinance is cited in the above mentioned Bill No. 590, provides that Council pass a particular enabling ordinance in each instance where the City desires to enter into an agreement for the temporary abandonment of tracks belonging to the Pittsburgh Railways Company. The original ordinance of 1929 specifically states the form of the contract to be entered into and the conditions of the same, and, of course, the City will have to look to the said contract for its protection in the matter.

All contracts with street railways companies are made by authority of the Act of the General Assembly, approved the 3rd day of May, 1905, P. L. 379, which Act specifically puts a fifty-year limitation upon such contracts or agreements. For this reason, it is customary to include the phrase "for the term of forty-nine years" in ordinances such as the one proposed, although the ordinance is only for "temporary abandonment." This brings the ordinance definitely within the fifty-year limitation placed upon agreements authorized by the above mentioned Act of Assembly.

It is our opinion that the proposed ordinance, in its present form, is legal and sufficient to enable the City to make the contemplated agreement for

the specified temporary abandonment of tracks.

Very truly yours,

WILLIAM B. SECRIST,  
City Solicitor.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.  
Which motion prevailed.

The Chair presented

No. 780.

City of Pittsburgh,  
Office of the Mayor.

To City Council:

I am returning Bill No. 646 without my signature as this is for W. P. A., and the City is without authority to contribute thereto.

WM. N. McNAIR,

Mayor.

May 13, 1936.

Which was read, received and filed.

Also

Bill No. 646. An Ordinance entitled, "An Ordinance appropriating the sum of Eight Thousand Five Hundred and Thirty-six (\$8,536.00) Dollars, from the proceeds of the sale of B. F. No. 127, Public Improvement Notes, 1936, for the payment of the City's share of the cost of construction of the Sophia Evert No. 1 Playground to be carried out and completed in conjunction with the Federal Works Progress Administration."

In Council, May 4, 1936, Bill read, rule suspended, read a second time, amended, read a third time and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

|           |                  |
|-----------|------------------|
| Anderson  | Garland          |
| Demmler   | McArdle          |

Mr. Gallagher called up

Bill No. 30. Resolution accepting the offer of the Executors and Trustees under the will of Frederick C. Renziehausen, deceased, of all that property in the 27th Ward at the northeast corner of Sorrell street and Marshall avenue, to be known as "Sophia Evert Playgrounds, No. 3."

In Council, May 4, 1936, Called up, read a second time and amended as shown in red, and as amended agreed to, rule suspended, read a third time and failed to pass finally for lack of a majority vote.

Which was read.

Mr. Anderson arose and said:

Mr. President: When this bill was up for consideration a week or two ago, I was of the opinion that action on it should be delayed for the present, and for that reason I voted against it.

I am in a different position today with respect to the use to which this property should be put. It has been reported that the Government proposes to purchase this property on which to erect low-cost houses. Before I vote on the resolution I shall ascertain whether the adjoining property owners desire a playground or the low-cost houses.

For that reason I tried to get in touch with some of the people opposed to the playground, and through no fault of theirs I have been unable to do so, particularly because of illness which confined me to my home for a few days.

I would therefore request Council to defer action on this resolution for a week in order to give me an opportu-

nity to get in touch with these people. In my opinion I believe it would be better to have a playground established on this property than cheap houses.

Mr. Gallagher arose and said

Mr. President: I am agreeable to having the resolution laid over for a week, and will withdraw my request to have it placed on final reading and passage.

Mr. Gallagher moved

That the bill be laid over.

Which motion prevailed.

Mr. Evans arose and said:

Mr. President: I want to call the attention of Council at this time to the Tax Abatement Bill which is pending in the State Legislature. There is a provision in this Tax Abatement Bill that all tax sales shall be suspended until 1937. I believe Council is very much interested in this Bill, and I am merely calling it to your attention at this time so that proper action may be taken by Council.

The Chair said:

Have you any suggestions with respect to this legislation?

Mr. Evans said:

I would suggest, Mr. President, that Council consider this bill in the near future and take whatever action we deem necessary under the circumstances. If this Bill is passed by the Legislature it will stop all tax sales for the year.

The Chair said:

We will leave the matter in your hands, Mr. Evans, to prepare and present to Council the necessary resolution bearing on the subject.

Mr. McArdle moved

That a special meeting of Council be called for Thursday next at 12:30 P. M. (Eastern standard time).

Which motion prevailed.

And on motion of Mr. McArdle

Council, adjourned.

Mr. Demmler moved

and cooperate with each other in directing the investigation of such rates to the end that the co-ordinating power of determining fair, just and reasonable rates may be exercised by the Commission and the City on the one record.

Which motion prevailed.

Mr. Demmler arose and said:

I would like to have the following made a part of the record:

In the Pittsburgh Press for May 15, 1936, there appears a news item which contained the following two paragraphs:

"The city's cash balance on the Council financial statement was put at \$7,330,776.00. Receipts this year, together with last year's surplus, was placed at \$13,703,744.00. From this \$8,624,619.00 has been paid and bills for \$1,293,842.00 are outstanding.

"Tax collections for the next seven months, at the same rate as last year, would be \$10,143,450.00. Added to money already received, this makes a total 1936 income for the city of \$17,474,227.00. Appropriations for the year are \$18,125,395.00"

In analyzing these paragraphs, a person will find that they contain several errors. The statement "Receipts this year with last year's surplus" should read: Receipts this year together with the treasurer's cash balance as of January 1, 1936, is \$13,703,744.00. The statement "From this \$8,624,619.00 has been paid out and bills for \$1,293,842.00 are outstanding" is not correct. There has been paid out on warrants this year \$5,079,125.48, and outstanding warrants to April 30, 1936 amount to \$1,293,842.78, or a total of \$6,372,968.26. The statement that the total 1936 income for the City will be \$17,474,227.00 is not correct, as the receipts from January 1, 1936, to April 30, 1936, amounted to \$12,215,180.91, and the estimated receipts for the balance of the year based on the 1935 receipts, would be \$10,143,450.82, a total income for 1936 of \$22,358,631.73.

The statement "Appropriations for the year are \$18,125,395.00" should read: Unexpended appropriations, and not "appropriations for the year."

I do not know if there are many

persons who might use the figures published in the newspaper as correct. My only intention is to call the attention of Council to the errors in this news item.

WALTER R. DEMMLER.  
5-21-1936.

Mr. Gallagher called up

Bill No. 30. Resolution accepting the offer of the Executors and Trustees of the Frederick C. Renziehausen Estate to dedicate a certain lot or piece of ground situate in the 27th Ward, at the northeast corner of Sorrell avenue and Marshall avenue, as the Sophia Evert Playground No. 3.

In Council, May 4, 1936, called up and read a second time, and amended as shown in red, and as amended, agreed to, rule suspended, read a third time, and failed to pass finally for the lack of a majority vote.

Which was read.

Which motion prevailed.

#### MOTIONS AND RESOLUTIONS.

Mr. Evans presented

No. 849. WHEREAS, It has been represented in the public press by the Director of Public Works that he proposes to withdraw from the supervision of W. P. A. projects in which the City and the W. P. A. are presently engaged, all city employes engaged in the supervision thereof; and

WHEREAS, Said proposed withdrawal is promised by the Director of Public Works upon the unwarranted and false assumption that no funds are available or have been appropriated by Council for the payment of their salaries; and

WHEREAS, Contrary to such assumption, the Council of the City of Pittsburgh has heretofore appropriated adequate funds for the supervision of W. P. A. work, the same being derived from the proceeds of the sale of notes now in the hands of the City Treasurer; and

WHEREAS, The Director of Public Works has announced his intention of preventing, to the best of his ability, the continuance of the expenditure of Federal funds under W. P. A. authority in the City of Pittsburgh; and

WHEREAS, The Director of Public Works has refused to meet with individual representatives of Council organized informally into a committee for a discussion of the best methods of arriving at adequate and proper supervision of W. P. A. projects in which the City and W. P. A. might be engaged; and

WHEREAS, It is obvious to Council that the present attitude of the Director of Public Works is taken not in the best of good faith, but in an effort to embarrass the progress of the W. P. A. projects in the City of Pittsburgh for reasons known only to himself and his chief, the Mayor of the City of Pittsburgh. Now, therefore, be it

RESOLVED, That the Clerk of the Council be instructed to advise the Director of Public Works, in answer to his letter of May 14th, that the money which, in such letter he states would be required, has already been lawfully appropriated and made available to him and that the entire responsibility and legal liability for the failure to uniformly and steadily continue public work now employing about 8,000 men, will rest upon him and that Council in the premises, will consider no further appropriation.

Which was read.

Mr. Evans moved

The adoption of the resolution.

Mr. Magee arose and said:

Mr. President: I agree with all the recitals that are contained in the resolution, but I do not agree with the conclusion as being the practical means of dealing with a situation that is created by what I will call obstinacy on the part of administrative officers of the city government.

The effect of the passage of this resolution will be either that the WPA will abandon, in uncompleted form, the projects on which they are employed, or else continue them without city supervision; in which event they may be prevented by the police, who are under the same arm of the city govern-

ment, or finally they might be unmolested and go along without any supervision whatever from the city.

Now, this last alternative is the one that I suppose will happen, and I don't think we can afford to allow an outside agency or force to perform city functions without some kind of check, supervision, and control by responsible city officers.

It would be the same thing as allowing a utility company to tear up a street to lay a main or conduit, or allowing a land owner to erect a building, without first having taken out a permit and without constant supervision over the construction of the building.

Other examples could be mentioned of numerous administrative powers of inspection and control that the city must necessarily exercise over persons engaged in many kinds of undertakings in the city that might entail possible loss or harm upon the city itself or its people.

Because the administrative officers are, as I said before, obstinate, is no reason why we should not be practical. The suggestion made here that the Director of the Department of Public Works take the proceeds of the \$500,000.00 note, or leave it, may put upon him the moral responsibility of the failure of the WPA, but it does not provide for the continuance of the work. We have other sources from which to make appropriations that are beyond attack in the courts and that would not entail six or more months' delay in litigation, such as the appropriation from the \$500,000.00 note surely will.

By sticking to this one form of procedure, to the \$500,000.00 note, it will seem to some at least that we are behaving arbitrarily instead of reasonably. Conference with the director may be vain, but I favor making further effort towards adjustment rather than invite harmful consequences upon the city through continuous disagreement as to policy between the legislative and administrative departments.

Mr. McArdle arose and said:

Mr. President: I am afraid that Mr. Magee's conclusion does not reach the bottom of this matter. If you pass this resolution or if you don't, it does

not affect the status of the matter as it now stands, if I understand the circumstances correctly.

The situation that has been presented, is one in which the Department of Public Works has declared its intention to discontinue furnishing supervisory forces to look after the work that the WPA has in motion, and their reason for doing that is their absence of funds with which to pay for this supervisory service.

The Council's contention is not only indicated by this resolution, but by its action in passing a bill last week to provide the money, and the money is available. Now, whether the Council erred in its conclusion is something else; nevertheless, that is the information on which we based our conclusion. If we are not right in that then, of course, an impasse has been reached, and the Director of the Department of Public Works closes down this work; and if we take Mr. Magee's alternative of furnishing money, because there is much more involved than the program of furnishing money for supervisory forces, we must wait for such time as it will require Council to float other loans. That means, of course, that we will assume another thirty days probably in floating another loan, to which the same objections might be raised; and yet, in my judgment, might be raised because fundamentally it seems to be the position of the Department of Public Works and, insofar as we know, the head of the city administrative government. It is not so much the source of the money as a determination not to cooperate with the policy that Council has declared with respect to dealing with the Works Progress Administration in carrying on these improvements. I am in favor of going along with this program until we have met the situation that Mr. Magee fears.

If in the meantime it is the judgment of Council that this should be done either for this or any other purpose, it might, with such celerity as it can, proceed with the new financing either for this or any other new projects that it wants to give consideration to; and I think for a correct understanding of our position no harm can be done by the Council expressing itself in the language of this resolution, and it then becomes a situation in

which the department either agrees with our view or disagrees, or some other municipal officer disagrees, and presents to us the facts upon which to base the conclusion that the Council has not really financed these projects. If we have been ill-advised as to the adequacy of our legislation, then, of course, we can conform to the newer information, but so far I don't think Council has been so advised, and I take it that this is the best method of continuing this work, and if it is not continued, insofar as we are now informed, it will not be because the Council has not financed it, but because of a determination of the Department of Public Works to refuse to avail itself of the financing which we have provided, whether that be upon the basis of advice that such financing is not legally at their disposal, or merely be in accord with the whim or judgment of the department that it does not want to accept money raised by this particular method, and the Director wants to declare the fiscal policy of the city in addition to performing the administrative functions of his department.

Mr. Anderson arose and said:

Mr. President: I think the resolution should pass. I think the Council has a right to answer public statements made by the officials of the city of Pittsburgh. The Director states, or at least he is quoted in the newspaper as stating, that it is entirely up to the Council whether these men continue their employment or not. The Council is notifying the Director through this resolution that they are proceeding in a lawful, orderly manner, to do what they think best, and what the Government and what everybody who is reasonable thinks is the right thing to do. I do not think that we should vote against a resolution of this kind when we are denying what the Director has said publicly in the newspaper, telling the public that he has placed the proposition in the lap of the Council, and saying the Council will be responsible if 8,000 men are thrown out of employment. I say that the Director or anybody who says that is wrong.

I have done everything, and tried to agree at times with some of the things that the Director proposed. When it

was proposed here to raise \$6,000,000.00 and the Government turn over \$24,000,000.00, and it was said there was waste of money, I agreed with the Director and the Mayor that the \$6,000,000.00 should be used on contract work; but I was as much interested then as I am now, to have the people who are unemployed, employed. That is what we have done. The Government has been very liberal in sending funds here when the City has not provided funds for materials and equipment. The Government has supplied practically all the money up to the present time, especially on those projects on which persons are employed on dirt streets. Surely work of that character should not be done by contract. The city in former years did that kind of work. The city did all kinds of repair work on the streets. We have our own asphalt plant and employed the men to do that character of work. Most of the money provided by the Government would be spent on projects of that nature. That persons living in the city should be given an opportunity to earn a livelihood is all that I am interested in, and this is one of the methods by which they can be given employment. All the City is asked to do is to provide the supervisory force, and I am willing to do that. I indicated my intention of providing such service when I voted for the ordinance which was before Council last Thursday, and that ordinance was prepared by the Public Works Department.

The ordinance referred to provided an appropriation of \$24,000.00 for work that the Director is complaining about. I am willing to spend four or five times that amount to keep these men at work. I think the City should exercise supervision over the work, and every man in this Council voted to pass the ordinance setting aside \$24,000.00 for the employment of these men who do the supervisory work.

I think the Council will make a mistake if it doesn't pass this resolution. I am not willing now, nor have I ever been willing, to take responsibility for keeping men out of employment. Before and since I have been a member of Council I represented the working-man, not only locally but internationally. I am a member of organized labor and have been a delegate to the

American Federation of Labor. I am as much concerned about employment of our citizens as anybody. I am not going to allow Director Johnston, or the Mayor, or anybody else say that I am responsible for unemployment.

Mr. Evans arose and said:

Mr. President: I wish to say a word in behalf of the resolution. It seems to me that there is more involved in this action than the mere appropriation of \$11,000.00 for the Works Progress Administration. It seems to me, if we are to come to an issue, we must decide whether we are going to proceed with these projects or let the Mayor of the City of Pittsburgh, who is politically opposed to this work, and who has stated politically that he is opposed to the present Federal Administration, and that his objection to the spending of government money in Pittsburgh is because it is put on political grounds, have his way. The Mayor has repeatedly stated in public that his administration is opposed to this method of doing the work. I feel that we must come to a showdown on this question and decide whether or not the City of Pittsburgh shall be the only city, not only in Pennsylvania, but in the country not to take advantage of spending government money on public improvements. I would deplore the necessity of seeing 8,000 men thrown out of work. I hope that a way can be found to put these men back to work promptly.

Mr. Gallagher arose and said:

Mr. President: I arise to say that I coincide with the remarks made by the previous speakers and shall vote for the resolution.

And the question recurring on the adoption of the resolution.

The motion prevailed.

Mr. Gallagher presented

No. 850. WHEREAS, The House of Representatives of the Commonwealth of Pennsylvania has seen fit to adopt Resolution No. 5 calling upon the Public Service Commission of the Commonwealth of Pennsylvania to make an inquiry into the feasibility of the issuance of a weekly pass for school children by street railways companies of Allegheny County; and

WHEREAS, This same resolution is about to come before the Senate of the Commonwealth of Pennsylvania for an expression from that body; Therefore, be it

RESOLVED, That the Council of the City of Pittsburgh endorses this proposal and approves the idea that such transportation be provided if possible under the terms of the resolution; and be it further

RESOLVED, That a copy of the expression of the Council of the City of Pittsburgh be forwarded to the presiding officer of the Senate and to the members of that body representing the County of Allegheny.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.

Mr. Gallagher said:

Mr. President: In explanation of the resolution, I wish to say that the House of Representatives of the State Legislature recently adopted House Resolution No. 5, and it is now before the State Senate for action. It provides for an investigation into the feasibility of a weekly street car pass for school children at a nominal sum, presumably 25 cents. I think an expression from this body will go a long way towards having the State Senate adopt a resolution similar to House Resolution No. 5. I cannot see why the Pittsburgh Railways Company, which operates the street railways system in Allegheny County, should obstruct an investigation by the Public Service Commission to determine the feasibility and cost of providing a weekly pass to school children. Other large cities in the United States provide such service for its school children.

Mr. Magee arose and said:

Mr. President: I would be in favor of the resolution if it left it to the Public Service Commission to find the facts, but it is a vain effort to tell the Commission what rate shall be established. The fact that the Council cannot determine rates was impressed upon this body last year by Judge Gray of the Court of Common Pleas. A rate depends on what it costs to produce the service, and if the resolution should fix the maximum amount to be charged for this service, it seems

to me it would defeat the very purpose intended by the sponsor of the resolution.

Mr. Gallagher said:

Mr. President: My purpose in introducing the resolution is to have an expression from this body that it approves House Resolution No. 5. We are not committing ourselves to a 25 cent fare. We are merely approving the resolution presented by Representative Holland and informing the members of the State Senate of this fact and asking them to concur in their action so that it will bring it before the Public Service Commission for investigation and decision.

Mr. Magee said:

Mr. President: In order to bring the matter to a decision, I would ask the maker of the motion to withhold action until I can study the proper wording for an amendment to the resolution.

Mr. Gallagher said:

Mr. President: I am agreeable to an amendment that will accomplish the desired purpose. My only reason in asking for the adoption of the resolution is to help the school children.

Mr. Magee moved

To amend the resolution by striking out, in the first "Resolved" clause, the words "endorses this proposal and approves the idea that such transportation be provided if possible under the terms of the resolution," and by inserting in lieu thereof, the words, "favors a reduction in the fares charged school children and endorses the demand that the Public Service Commission investigate the cost and other facts and circumstances which enter into the determination of fair rates with the end in view of accomplishing, if legally possible, a reduction in the rates charged to this class of car riders."

Which motion prevailed.

And the question recurring on the adoption of the resolution, as amended.

The motion prevailed.

Mr. Evans arose and said:

Mr. President: It was my purpose to present, today, a resolution calling for an investigation of the city Civil Service Commission, but I have

been informed that numerous civic groups are preparing a united protest against the conduct of this Commission, and a hearing on their protest is to be held soon.

I will defer presentation of the resolution until those hearings have been held.

Mr. Gallagher moved

That the Minutes of Council

of Friday, May 15, 1936, be approved.

Which motion prevailed.

The Chair announced

That Council would go into a conference with the County Commissioners immediately upon adjournment.

And there being no further business before the meeting, the Chair declared

Council adjourned.

To the President and  
Members of City Council.

Gentlemen:

Respectfully yours,

WM. N. McNAIR,  
Mayor.

The Twenty-seventh Ward  
Community Protective Association.  
1121 Marshall Ave., N. S.

May 28, 1936.

Hon. William N. McNair, Mayor,  
City of Pittsburgh,  
City-County Building,  
Pittsburgh, Pa.

Dear Mr. Mayor:

RE: Proposed Playground at Marshall Ave. and Sorrell St.

The property owners and residents of Marshall avenue, Brighton road and Ingham street, comprising 98% of the population in the immediate vicinity of this playground, respectfully ask that you again veto the ordinance passed by City Council on Monday, May 25, 1936 accepting this property from the Renziehausen Estate as a playground.

As you no doubt know, this property is in part owned by Councilman George E. Evans and the ordinance has been promoted by paid lobbyists for more than year. In spite of the fact that the property owners are almost 100% opposed to this proposition, we regret to be forced to arrive at the conclusion that machine politics have been brought to bear to pass this proposition through Council.

Our Association, during this long fight, has not lost heart because we know that you, the Mayor of the City of Pittsburgh, would stand by us in our efforts to keep this playground out of our district.

We are appending herewith fourteen valid reasons (in detail), each of them sufficient in force for a sustained veto.

We are, therefore, relying on you, Mr. Mayor, to again veto this ordinance.

Very truly yours,

The 27th Ward Community  
Protective Assn.

By: A. T. Heerlein,  
Secretary.

Which was read.

REASONS WHY MAYOR MCNAIR  
SHOULD VETO PROPOSED MAR-  
SHALL AVENUE-SORRELL STREET  
PLAYGROUND.

1. Playground not centrally located.

This property is not centrally located to serve as a playground. Eastwardly, there are only six houses for at least one mile; southwardly, there are only a few residents (not more than six) who have not signed a petition in opposition to the playground, residing within a radius of at least one mile. In a northerly direction there are only two or three residents in a mile radius to whom the playground would be of any use. Most of the influx would come from one direction only, namely, the west.

A recent post-card poll revealed that a preponderance of this population voted against this site because it was too far away from their district.

2. 98% of surrounding residents object.

A petition on file with City Council shows that 98% of surrounding residents object to this proposed playground. It seems unfair to place a playground in a district for the benefit of people from other districts. People who want a playground should tolerate this annoyance in their own neighborhood. They should not demand a playground and have it forced on these property owners and residents in our district where it is not needed or wanted.

3. Facilities are being duplicated.

Our district is amply provided with playgrounds:

(a) Oliver High School Athletic Field  
—a large field of about six acres, less than two blocks away from the proposed site.

(b) Horace Mann Playground—about three blocks away from the proposed site. Further, all of the homes in this neighborhood each have ample play-space for their children and have never expressed a demand to the City for playground space.

4. Proposed Playground will be situated on Hi-Speed Traffic Artery, U. S. Route 19.

It is the height of folly to invite children to possible death and injury to travel this busy and dangerous crossing. Most anyone can visualize the tomfoolery in going to and from this playground of children in groups. The entrance to this proposed playground would, because of the topography of

the ground, necessarily have to be situated on U. S. Route 19, and it would result in an extremely hazardous condition both to the children and to traffic.

5. Proposed Location on Extremely Long 8% Grade.

This grade is well over one mile in length, and it is a common sight to see automobiles and trucks coming down the hill completely out of control. There have been numerous accidents at the grade crossing at Marshall avenue and Brighton road, also where Marshall avenue joins the Ohio River boulevard. It is between these two points that the proposed playground is to be located. Hardly a week passes by without a serious accident at one or between these two points.

6. Depreciation of Surrounding Properties.

Most of the surrounding residents claim that their properties will be depreciated at least \$2,000.00 by the establishment of this playground. If you only figure the valuation decline not at \$2,000.00 per property but at a figure which cannot be disputed, say at only \$500 per home, then you have the sum of over \$50,000.00 in property values, a loss which this group of people cannot afford and which is of considerable interest to the City of Pittsburgh in the loss of taxable properties.

7. Withdrawal of Taxable Property to the Extent of 40 Lots.

This district is one of the few districts within almost walking distance from the Golden Triangle, and one of the few desirable residential localities still in the process of development. This playground would take away from the possible taxable columns 40 city lots, with each of them a prospective assessment of \$5,000.00, or a total taxable value of \$200,000.00 with a net loss to the City of about \$10,000.00 in tax revenue. This does not include County taxes.

8. Abutting Property Owners Have Legal Easements on Property to Be Acquired for Playground.

This piece of land was laid out by Evans & Newhams with a street to be known as Newhamshire drive with lots abutting this street. The property

owners bought from a plan of lots showing said Newhamshire drive. These property owners by reason of their purchase acquired a legal easement on said Newhamshire drive which will be eliminated by the playground and will impair the City's title to this land.

9. Proposed Playground Has Been Rejected By Planning Commission.

In a letter dated June 19, 1935, the City Planning Commission definitely rejected this proposed playground site for reasons specified therein. This letter was addressed to President and Members of City Council.

10. Contract Between City of Pittsburgh and Renziehausen Estate Is Contrary to Renziehausen Will.

Contract provides for the reversal to the Renziehausen Estate of this parcel of ground in case the City fails to maintain it as a playground; whereas, the Will provides that the ground be a gift to the City.

11. Playground Is Contrary to the Wish of the Donor.

According to the Renziehausen will—"... the sole purpose of the request is to supply a playground for children living in a crowded and congested section of the City;" whereas, this particular piece of land is, by no means in a crowded and congested section.

12. Councilman Evans Is Part Owner of This Property.

In the opinion of this Association it seems rather unethical for City Council to pass an ordinance which will indirectly benefit one of its members.

13. Promises by Evans & Newhams to Prospective Property Buyers.

When Mr. Evans offered this property for sale he assured prospective purchasers that this district would remain a high-class residential neighborhood. Those who bought on the strength of these assertions naturally will claim that a contract exists between them and Evans & Newhams. Legal procedure will naturally follow if this contract is broken by Evans & Newhams.

14. Will of Frederick C. Renziehausen Is Being Perverted.

According to the Will of Frederick

C. Renziehausen, which reads, "I direct my executors to purchase land at an expenditure of \$100,000.00 in some district of the City of Pittsburgh in order that it may be dedicated or transferred to the said City for the sole purpose of supplying a playground for children living in a crowded and congested section of the city." Note that he said a playground, not playgrounds; some district, not districts; he used the singular, not the plural, because he had in mind a congested area that would necessitate the buying and razing of slum dwellings. It is for that reason we infer that he bequeathed the large sum of \$100,000.00. Note that instead of following his wishes that the executors are installing a number of playgrounds that are not in congested areas such as the Strip, Woods Run or the Hill District which he no doubt had in mind. There seems to be a concerted effort on the part of the executors to provide show places for the name of "Sophia Evert" rather than

for the relief of children in congested areas.

Also

Bill No. 30. Resolution accepting the offer of the Executors and Trustees of the Estate of Frederick C. Renziehausen, deceased, to convey by deed of gift to the City of Pittsburgh all that certain lot or piece of ground situate in the 27th Ward, at the northeast corner of Sorrell avenue and Marshall avenue, to be known as "Sophia Evert Playgrounds No. 3", and providing that improvements thereon shall begin not later than July 1, 1936.

In Council, May 25, 1936, Read a third time and finally passed.

Which was read.

Mr. Gallagher moved

That the communication and bill be laid over.

Which motion prevailed.

And on motion of Mr. Garland

Council adjourned.

No. 880.

Department of City Controller,

June 2, 1936.

Subject—Bill 554.

Chairman and Members,

Committee on Finance,

Council, City of Pittsburgh.

Gentlemen:

In response to your request for an expression of the sufficiency of the language in Bill No. 554, permit me to say that I have not sufficient facts with reference to this whole project to be able to give you an intelligent expression as to the sufficiency of the language set forth in the bill.

This question is so involved, there are so many complications, that it would require considerable study to ascertain just what the City expects to accomplish in this matter.

I am very much opposed to the City being obligated in any way to the furtherance of this project. In Section four, it is set forth that "If, at any time, it shall appear that the City of Pittsburgh shall subject itself to any liability over and above the amount of the grant hereby authorized, the City of Pittsburgh may, by proper action, withdraw from the above said application."

If the City should lend itself to this project and the work were to proceed and the City then found itself in the position of liability, I cannot see how, by any legislation, it could then withdraw, because if that were possible the project would be left in an incomplete condition. I am therefore very strongly of the opinion that the City should not become a party to this operation.

As I see it, it is not a part of the Controller's duty to enter into any operation such as that set forth in this Ordinance. If the City officials are of the opinion that this should be carried through, then some other officer should be substituted for the City Controller. Needless for me to say, that with my past experience in connection with the former Exposition Society, I am very much opposed to the project as it comes to me at this time.

Respectfully submitted,

JAMES P. KERR,

City Controller.

Which was read, received and filed.

No. 881.

Subject: Bill No. 554. An Ordinance Covering Proposed Application for Grant for Greater Pittsburgh Exposition Society.

To the Honorable, the Finance Committee of Council.

Gentlemen:

With reference to Bill No. 554, an Ordinance covering the proposed application for a grant for the Greater Pittsburgh Exposition Society, in my letter of May 25, 1936, I recommended the execution of a definite form of application on the theory that it involved the City in no obligation, not even the necessity of accepting the grant if made.

With this in mind, it does not seem proper to me to include in the proposed ordinance any of the following provisions:

Substitution of the City on application known as "Pennsylvania 1010", with the terms of which I am not familiar;

Any provision obligating the City as to the use of the money if granted, this being included in the approved application;

Any provision for the modification of the original lease, which is a matter that would have to receive the attention of Council if the grant is made and accepted.

Very truly yours,

WILLIAM B. SECRIST,

City Solicitor.

Members of City Council.

Gentlemen:

I have the honor to inform you that I have appointed, subject to your approval, Mr. Ludwick Zupancic, 605 Grant building, as a member of the City Planning Commission, and would ask for confirmation of the same.

Respectfully yours,

WM. N. McNAIR,

Mayor.

Which was read, and on motion of Mr. Gallagher, referred to the Committee on Finance.

Mr. Evans presented

No. 925. WHEREAS, Information has come to the members of the Council of the City of Pittsburgh, through the channels of the public press, that Honorable William N. McNair, Mayor of the City of Pittsburgh, has refused to sign checks for the payment of interest on the City debt which is now overdue; and

WHEREAS, The funds for the payment of said interest have been pro-

vided and are on deposit in the authorized legal depositories for the purpose of paying said interest; and

WHEREAS, Further information has come to the members of the City Council, through the channels of the public press, that the Honorable William N. McNair, Mayor of the City of Pittsburgh, has, at divers times, refused to sign checks for the transfer of funds to the Sinking Fund Commission, which are in the regular order of business in connection with the proper and orderly transaction of City business; and

WHEREAS, Further information has come to the members of the City Council, through the channels of the public press, that the Honorable William N. McNair, Mayor of the City of Pittsburgh, has ordered the City Treasurer to make no payments on account of the interest and principal on the obligations of the City; and

WHEREAS, Such refusal of the Honorable William N. McNair, Mayor of the City of Pittsburgh, to meet the above mentioned obligations, is believed to have adversely affected the credit of the City of Pittsburgh by casting doubt on the good faith and credit of the City, with respect to its financial standing; Now, Therefore, be it

RESOLVED, That the Honorable William N. McNair, Mayor of the City of Pittsburgh, be directed to appear at a meeting of the Finance Committee of the Council of the City of Pittsburgh, on Tuesday, June 9, 1936, at 12:30 o'clock P. M., Eastern Standard Time, for the purpose of discussing the matters set forth in this resolution, and the financial status of the City in general, with respect to the statements recently published in the public press, in which the Mayor is alleged to have stated that the City is facing a deficit for the current year, 1936, in excess of \$4,000,000.00; And, be it further

RESOLVED, That he directed to exhibit to the members of the Finance Committee of Council at that time, copies of all correspondence that has passed between him and the Treasurer of the City of Pittsburgh and the Controller of the City of Pittsburgh, having any bearing whatsoever upon the subject-matter referred to in this resolution; And, be it further

RESOLVED, That a copy of this

resolution be delivered promptly by the City Clerk to the Honorable William N. McNair, Mayor of the City of Pittsburgh.

Which was read.

Mr. Evans moved

The adoption of the resolution.

Mr. Magee arose and said:

Mr. Chairman: I don't think the Council has authority to order the Mayor to do this. The word "directed" it seems to me could easily be eliminated and a more appropriate word substituted, which I say ought to be "requested".

Mr. Evans arose and said:

Mr. President: The substitution of the word "request" is agreeable to me.

Mr. Magee arose and said:

Mr. President: There are two places in the resolution where the word "directed" appears.

Mr. Evans moved

To amend the resolution by striking out in the two places it appears, the word, "directed" and by inserting in lieu thereof the word "requested."

Which motion prevailed.

Mr. Gallagher called attention to the fact that the Mayor was not in the City, and the date should be changed when he was to appear before the Committee to some time when he would be at his office.

Mr. Evans moved

To amend the resolution by striking out the words, "Tuesday, June 9," and by inserting in lieu thereof, "Wednesday, June 10."

Which motion prevailed.

Mr. Demmler arose and said:

Mr. President: On the adoption of the motion, I want to say that the Mayor ought to comply with the request of the Council and appear before the Councilmanic Finance Committee to give us the information upon which he bases the statements which have been appearing in the newspapers.

From the information I have been able to gather, I am confident that if the receipts of the City Treasurer for the coming seven months will equal

the receipts for the same period last year, that the City will close its books at the end of the year with a substantial balance.

I cannot understand by what reasoning the Mayor arrives at the statements he has been giving to the newspapers.

And the question recurring on the adoption of the resolution, as amended. The motion prevailed.

Mr. McArdle presented

No. 926. RESOLVED, That the Director of the Department of Public Health, in conjunction with the Department of Law, be and he is hereby requested and directed to prepare and present to Council proper legislation for the acquisition of the property located on Crane avenue, 20th Ward of the City of Pittsburgh, tendered by the Commonwealth Trust Company, agent, and the property adjacent thereto, tendered by the Real Estate Company of Pittsburgh, agent, for use by the City of Pittsburgh as a site for an incinerator.

Gentlemen of Council: I wish to call your attention to the fact that on June 10, 1911, the small Council of Nine, appointed by the then Governor John K. Tener, was inducted into office, and this is the 25th Anniversary of this event.

Does any member of Council wish to make any remarks commemorating this event? If not, a motion to adjourn is in order.

And on motion of Mr. Gallagher Council adjourned.
